UNITED STATES SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

**Form 10-Q**

**Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**  
For the quarterly period ended September 30, 2006

Or

**Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**  
For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number 001-32936

**HELIX ENERGY SOLUTIONS GROUP, INC.**

*(Exact name of registrant as specified in its charter)*

**Minnesota**  
*(State or other jurisdiction  
of incorporation or organization)*

**95-3409686**  
*(I.R.S. Employer  
Identification No.)*

**400 N. Sam Houston Parkway E.  
Suite 400  
Houston, Texas**  
*(Address of principal executive offices)*

**77060**  
*(Zip Code)*

**(281) 618-0400**  
*(Registrant's telephone number, including area code)*

**NOT APPLICABLE**

*(Former name, former address and former fiscal year, if changed since last report)*

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

As of November 3, 2006, 93,356,999 shares of common stock were outstanding.

**HELIX ENERGY SOLUTIONS GROUP, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**Note 1 — Basis of Presentation**

The accompanying condensed consolidated financial statements include the accounts of Helix Energy Solutions Group, Inc. (formerly known as Cal Dive International, Inc.) and its majority-owned subsidiaries (collectively, "Helix" or the "Company"). Unless the context indicates otherwise, the terms "we," "us" and "our" in this report refer collectively to Helix and its subsidiaries. We account for our 50% interest in Deepwater Gateway, L.L.C., our 20% interest in Independence Hub, LLC ("Independence") and our 40% interest in Offshore Technology Solutions Limited ("OTSL") using the equity method of accounting as we do not have voting or operational control of these entities. All material intercompany accounts and transactions have been eliminated. These condensed consolidated financial statements are unaudited, have been prepared pursuant to instructions for the Quarterly Report on Form 10-Q required to be filed with the Securities and Exchange Commission and do not include all information and footnotes normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles.

The accompanying condensed consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles and are consistent in all material respects with those applied in our annual report on Form 10-K for the year ended December 31, 2005. The preparation of these financial statements requires us to make estimates and judgments that affect the amounts reported in the financial statements and the related disclosures. The actual results may differ from our estimates. Our 2005 Annual Report on Form 10-K contains a detailed description of our critical accounting policies. In addition, due to the acquisition of Remington Oil and Gas Corporation ("Remington") on July 1, 2006, we have expanded our critical accounting policies related to our Oil and Gas segment. See a discussion of these critical accounting policies in "Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates" included herein.

Management has reflected all adjustments (which were normal recurring adjustments unless otherwise disclosed herein) that it believes are necessary for a fair presentation of the condensed consolidated balance sheets, results of operations and cash flows, as applicable. Operating results for the period ended September 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. Our balance sheet as of December 31, 2005 included herein has been derived from the audited balance sheet as of December 31, 2005 included in our 2005 Annual Report on Form 10-K. These condensed consolidated financial statements should be read in conjunction with the annual consolidated financial statements and notes thereto included in our 2005 Annual Report on Form 10-K.

Certain reclassifications were made to previously reported amounts in the condensed consolidated financial statements and notes thereto to make them consistent with the current presentation format. Reclassifications related primarily to reportable segment realignment in the fourth quarter of 2005 and reporting dry hole cost as a component of our exploration costs instead of as a component of depreciation, depletion and amortization costs on the statement of cash flows due to the significance of our oil and gas exploration activities as a result of our recent acquisition (see Note 3).

**Note 2 – Statement of Cash Flow Information**

We define cash and cash equivalents as cash and all highly liquid financial instruments with original maturities of less than three months. As of September 30, 2006 and December 31, 2005, we had \$48.4 million and \$27.0 million, respectively, of restricted cash included in other assets, net. As of September 30, 2006 and December 31, 2005, \$33.4 million and \$27.0 million, respectively, were related to Energy Resource Technology, Inc. (merged into and now known as Energy Resources Technology GOM, Inc.) ("ERT"), a wholly owned subsidiary of the Company, escrow funds for decommissioning liabilities associated with the South Marsh Island 130 ("SMI 130") acquisition in 2002. Under the purchase agreement for those acquisitions, ERT was obligated to escrow 50% of production up to the first \$20 million of escrow and 37.5% of production on the remaining balance up to \$33 million in total escrow. ERT has fully escrowed the requirement as of September 30, 2006. ERT may use the restricted cash for decommissioning the related field. Further, \$15.0 million of restricted cash at September 30, 2006 was temporarily held in escrow as required by the senior credit facility we entered into in July 2006 (see Note 8 below).

The following table provides supplemental cash flow information for the three and nine months ended September 30, 2006 and 2005 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Interest paid (net of capitalized interest)	\$ 1,312	\$ 2,484	\$ 6,385	\$ 5,847
Income taxes paid	\$ 15,380	\$ 780	\$ 56,794	\$ 2,013

Non-cash investing activities for the nine months ended September 30, 2006 included \$71.5 million related to accruals of capital expenditures. The accruals have been reflected in the condensed consolidated balance sheet as an increase in property and equipment and accounts payable.

**Note 3 – Acquisition of Remington Oil and Gas Corporation**

On July 1, 2006, we acquired 100% of Remington, an independent oil and gas exploration and production company headquartered in Dallas, Texas, with operations concentrated in the onshore and offshore regions of the Gulf Coast, for approximately \$1.4 billion in cash and stock and the assumption of \$345.5 million of liabilities. The merger consideration was 0.436 of a share of our common stock and \$27.00 in cash for each share of Remington common stock. On July 1, 2006, we issued 13,032,528 shares of our common stock to Remington stockholders and funded the cash portion of the Remington acquisition (approximately \$806.8 million) and transaction costs (approximately \$18.3 million) through a credit agreement (see Note 8 below).

[Table of Contents](#)

The Remington acquisition was accounted for as a business combination with the acquisition price allocated to the assets acquired and liabilities assumed based upon their estimated fair values, with excess being recorded in goodwill. The following table summarizes the estimated preliminary fair values of the assets acquired and liabilities assumed at the date of acquisition (in thousands):

Current assets	\$ 156,409
Property and equipment	861,147
Goodwill	699,760
Other intangible assets <sup>(1)</sup>	6,800
<b>Total assets acquired</b>	<b><u>\$1,724,116</u></b>
Current liabilities	\$ 120,778
Deferred income taxes	205,952
Decommissioning liabilities	18,740
<b>Total liabilities assumed</b>	<b><u>\$ 345,470</u></b>
 Net assets acquired	 <u>\$1,378,646</u>

- (1) The intangible asset is related to a favorable drilling rig contract and several non-compete agreements between the Company and certain members of senior management. The preliminary fair value of the drilling rig contract was \$5.0 million and the amount will be reclassified into property and equipment if drilling of certain exploratory wells is successful. If drilling is unsuccessful, the intangible asset will be expensed in the period drilling is determined to be unsuccessful. The preliminary fair value of the non-compete agreements was \$1.8 million, which will be amortized over the term of the agreements (three years) on a straight-line basis.

The allocation of the purchase price was based upon preliminary valuations. Estimates and assumptions are subject to change upon the receipt and management's review of the final valuations. The primary areas of the purchase price allocation which are not yet finalized relate to valuation of certain proved and unproved oil and gas properties and identification and valuation of potential intangible assets. The final valuation is expected to be completed no later than one year from the acquisition date.

The results of the acquisition are included in the accompanying statements of operations since the date of purchase in our Oil and Gas segment (formerly known as our Oil and Gas Production segment). Pro forma combined operating results of the Company and the Remington acquisition for the three and nine months ended September 30, 2006 and 2005 were presented as if the acquisition had been completed as of January 1, 2006 and January 1, 2005, respectively. The pro forma combined results were as follows (in thousands, except per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Net revenues	\$374,424	\$280,838	\$1,113,700	\$742,162
Income before income taxes <sup>(1)</sup>	89,242	81,188	267,256	173,096
Net income	57,833	51,492	174,929	110,376
Net income applicable to common shareholders	57,029	50,942	172,515	108,726
Earnings per common share:				
Basic	\$ 0.62	\$ 0.56	\$ 1.89	\$ 1.20
Diluted	\$ 0.60	\$ 0.54	\$ 1.81	\$ 1.16

- (1) Includes approximately \$11.5 million of severance and incentive compensation expense, and approximately \$20.6 million of non-cash stock compensation expense for vesting of stock options and restricted shares incurred by Remington in June 30, 2006.

**Note 4 – Offshore Properties**

We follow the successful efforts method of accounting for our interests in oil and gas properties. Under the successful efforts method, the costs of successful wells and leases containing productive reserves are capitalized. Costs incurred to drill and equip development wells, including unsuccessful development wells, are capitalized. Costs incurred relating to unsuccessful exploratory wells are expensed in the period the drilling is determined to be unsuccessful.

At September 30, 2006, we had capitalized approximately \$19.1 million of exploratory drilling costs associated with ongoing exploration and/or appraisal activities. Such capitalized costs may be charged against earnings in future periods if management determines that commercial quantities of hydrocarbons have not been discovered or that future appraisal drilling or development activities are not likely to occur. The following table provides a detail of our capitalized exploratory project costs at September 30, 2006 (in thousands):

Huey(1)	\$ 10,855
Castleton (part of <i>Gunnison</i> )(1)	8,129
Other	75
Total	<u>\$ 19,059</u>

(1) Suspended as of September 30, 2006

The following table reflects net changes in suspended exploratory well costs during the first nine months of 2006 (in thousands):

Beginning balance at January 1, 2006	\$ 12,349
Additions pending the determination of proved reserves	44,250
Reclassifications to proved properties	—
Charged to dry hole expense	(37,615)
	<u>\$ 18,984</u>

As of September 30, 2006, all of these exploratory well costs have been capitalized for a period of one year or less.

Further, the following table details the components of exploration expense for the three and nine months ended September 30, 2006 and 2005 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Delay rental	\$ 509	\$ 371	\$ 799	\$ 623
Geological and geophysical costs	2,142	557	2,881	5,327
Dry hole expense	16,869	—	37,615	—
Total exploration expense	<u>\$ 19,520</u>	<u>\$ 928</u>	<u>\$ 41,295</u>	<u>\$ 5,950</u>

In addition, in the three and nine months ended September 30, 2006, we expensed inspection and repair costs related to damages sustained by Hurricanes *Katrina* and *Rita* for our oil and gas properties totaling approximately \$5.8 million and \$14.9 million, respectively, partially offset by \$1.6 million and \$4.3 million of insurance recoveries recognized in the three and nine months ended September 30, 2006, respectively. At June 30, 2006, Remington had approximately \$18.3 million of insurance receivables, which were all collected in the third quarter of 2006.

## [Table of Contents](#)

ERT agreed to participate in the drilling of an exploratory well (Tulane prospect) that was drilled in the first quarter of 2006. This prospect targeted reserves in deeper sands, within the same trapping fault system, of a currently producing well. In March 2006, mechanical difficulties were experienced in the drilling of this well, and after further review, the well was plugged and abandoned. The total estimated cost to us of approximately \$21.7 million was charged to earnings during the nine months ended September 30, 2006. We continue to evaluate various options with the operator for recovering the potential reserves. Further, in the third quarter of 2006, we expensed approximately \$15.9 million of exploratory drilling costs related to two deep shelf properties (acquired in the Remington acquisition which were in process prior to July 1, 2006) in which we determined commercial quantities of hydrocarbons were not discovered.

In March 2005, ERT acquired a 30% working interest in a proven undeveloped field in Atwater Block 63 (Telemark) of the Deepwater Gulf of Mexico for cash and assumption of certain decommissioning liabilities. In December 2005, ERT was advised by Norsk Hydro USA Oil and Gas, Inc. ("Norsk Hydro") that Norsk Hydro would not pursue its development plan for the deepwater discovery. As a result, ERT acquired a 100% working interest and operatorship in April 2006 following a non-consent to the ERT plan of development by Norsk Hydro. ERT's interest in this property and surrounding fields were sold in July 2006 for \$15 million in cash and with ERT also retaining a reservation of an overriding royalty interest in the Telemark development. We recorded a gain of \$2.2 million in the third quarter of 2006 related to this sale.

### **Note 5 – Other Acquisitions**

In April 2005, we agreed to acquire the diving and shallow water pipelay assets of Acergy US Inc. (formerly known as Stolt Offshore, Inc.) ("Acergy") that operate in the waters of the Gulf of Mexico (GOM) and Trinidad. The transaction included: seven diving support vessels; two diving and pipelay vessels (the *Kestrel* and the *DLB 801*); a portable saturation diving system; various general diving equipment and Louisiana operating bases at the Port of Iberia and Fourchon. All of the assets are included in the Shelf Contracting segment. The transaction required regulatory approval, including the completion of a review pursuant to a Second Request from the U.S. Department of Justice. On October 18, 2005, we received clearance from the U.S. Department of Justice to close the purchase from Acergy. Under the terms of the clearance, we will divest one diving support vessel and have previously disposed of one diving support vessel and a portable saturation diving system from the combined asset package acquired through this transaction and the asset purchases in August of 2005 from Torch Offshore, Inc. ("Torch"). These assets were included in assets held for sale totaling \$100,000 and \$7.8 million as of September 30, 2006 and December 31, 2005, respectively. On November 1, 2005, we closed the transaction to purchase the Acergy diving assets operating in the Gulf of Mexico. The assets included: seven diving support vessels, a portable saturation diving system, various general diving equipment and Louisiana operating lease at the Port of Iberia and Fourchon. We acquired the *DLB 801* in January 2006 for approximately \$38.0 million and the *Kestrel* for approximately \$39.9 million in March 2006 and we paid approximately \$274,000 additional transaction cost related to the Acergy acquisitions in 2006.

## [Table of Contents](#)

The Acergy acquisition was accounted for as a business combination with the acquisition price allocated to the assets acquired and liabilities assumed based upon their fair values, with the excess being recorded as goodwill. The final valuation of net assets was completed in the second quarter of 2006. The total transaction value for all of the assets was approximately \$124.3 million. The allocation of the Acergy purchase prices was as follows (in thousands):

Vessels	\$ 94,583
Goodwill	11,594
Portable saturation system and diving equipment	9,494
Facilities, land and leasehold improvements	4,314
Customer relationships intangible asset(1)	3,698
Materials and supplies	631
Total	<u>\$124,314</u>

(1) The customer relationship intangible asset is amortized over eight years on a straight-line basis, or approximately \$463,000 per year.

The results of the acquired assets are included in the accompanying condensed consolidated statements of operations since the date of the purchase. Pro forma combined operating results adjusted to reflect the results of operations of the *DLB 801* and the *Kestrel* prior to their acquisition from Acergy in January and March 2006, respectively, are not provided because the 2006 pre-acquisition results related to these vessels were immaterial to the historical results of the Company.

Subsequent to our purchase of the *DLB 801*, we sold a 50% interest in the vessel in January 2006 for approximately \$19.0 million. We received \$6.5 million in cash in 2005 and a \$12.5 million interest-bearing promissory note in 2006. The balance of the promissory note as of September 30, 2006 was \$1.5 million. We expect to collect the remaining balance. Subsequent to the sale of the 50% interest, we entered into a 10-year charter lease agreement with the purchaser, in which the lessee has an option to purchase the remaining 50% interest in the vessel beginning in January 2009. This lease was accounted for as an operating lease. Included in our lease accounting analysis was an assessment of the likelihood of the lessee performing under the full term of the lease. The carrying amount of the *DLB 801* at September 30, 2006, was approximately \$17.8 million. In addition, if the lessee exercises the purchase option under the lease agreement, the lessee is able to credit \$2.35 million of its lease payments per year against the remaining 50% interest in the *DLB 801* not already owned. If the lessee elects not to exercise its option to purchase the remaining 50% interest in the vessel, minimum future rentals to be received on this lease are \$68.0 million through January 2016.

In January 2006, the *Caesar* (formerly known as the *Baron*), a four year old mono-hull vessel originally built for the cable lay market, was acquired by our subsidiary Vulcan Marine Technology LLC ("Vulcan") for the Contracting Services segment for approximately \$27.5 million in cash. It is currently under charter to a third party. After completion of the charter (anticipated to end by the end of 2006), we plan to convert the vessel into a deepwater pipelay asset. The vessel is 485 feet long and already has a state-of-the-art, class 2, dynamic positioning system. The conversion program will primarily involve the installation of a conventional 'S' lay pipelay system together with a main crane and a significant upgrade to the accommodation capability. A conversion team has already been assembled with a base at Rotterdam, The Netherlands, and the vessel is likely to enter service during the second half of 2007. We have entered into an agreement with the third party currently leasing the vessel, whereby the third party has an option to purchase up to 49% of Vulcan for consideration totaling the proportionate share of the cost of the vessel plus the actual cost of conversion (conversion cost is estimated to be \$90 million). The third party must make all contributions to Vulcan on or before March 31, 2007.

## [Table of Contents](#)

To expand our international operations, in July 2006, we acquired the business of Singapore-based Fraser Diving International Ltd (“FDI”) for an aggregate purchase price of approximately \$29.8 million, subject to post-closing adjustments, and the assumption of \$1.8 million of liabilities. FDI owns six portable saturation diving systems and 15 surface diving systems that operate primarily in Southeast Asia, the Middle East, Australia and the Mediterranean. As a part of the purchase, in December 2005, a payment of an additional \$2.5 million was made to FDI for the purchase of one of the portable saturation diving systems. The acquisition was accounted for as a business combination with the acquisition price allocated to the assets acquired and liabilities assumed based upon their estimated fair values. The following table summarizes the estimated preliminary fair values of the assets acquired and liabilities assumed at the date of acquisition (in thousands):

Portable saturation diving systems and surface diving systems	\$ 22,813
Diving support equipment, support facilities and other equipment	4,077
Cash and cash equivalents	2,332
Accounts receivable	1,817
Prepaid expenses and deposits	542
Total assets acquired	<u>\$ 31,581</u>
Accounts payable and accrued liabilities	<u>\$ 1,763</u>
Net assets acquired	<u>\$ 29,818</u>

The allocation of the purchase price was based upon preliminary valuations. Estimates and assumptions are subject to change upon the receipt and management’s review of the final valuations. The primary areas of the purchase price allocation that are not yet finalized relate to post closing purchase price adjustments and identification and valuation of potential intangible assets. The final valuation of net assets is expected to be completed no later than one year from the acquisition date. The results of FDI are included in the accompanying condensed consolidated statements of operations since the date of purchase in our Shelf Contracting segment. Pro forma combined operating results for the three and nine months ended September 30, 2006 and 2005 (adjusted to reflect the results of operations of FDI prior to its acquisition) are not provided because the pre-acquisition results related to FDI were not material to the historical results of the Company.

### **Note 6 – Details of Certain Accounts (in thousands)**

Other current assets consisted of the following as of September 30, 2006 and December 31, 2005:

	September 30, 2006	December 31, 2005
Other receivables	\$ 1,790	\$ 1,386
Prepays	38,208	13,182
Income tax receivable	25,642	—
Spare parts inventory	3,441	3,628
Current deferred tax assets	2,621	8,861

Accrued interest	16,275	2,610
Other	44,817	27,468
	<u>\$ 177,192</u>	<u>\$ 145,752</u>

**Note 7 – Equity Investments**

As of September 30, 2006, we have the following investments that are accounted for under the equity method of accounting:

- *Deepwater Gateway, L.L.C.* In June 2002, we, along with Enterprise Products Partners L.P. (“Enterprise”), formed Deepwater Gateway, L.L.C. (a 50/50 venture) to design, construct, install, own and operate a tension leg platform (“TLP”) production hub primarily for Anadarko Petroleum Corporation’s *Marco Polo* field discovery in the Deepwater Gulf of Mexico. Our investment in Deepwater Gateway, L.L.C. totaled \$122.5 million and \$117.2 million as of September 30, 2006 and December 31, 2005, respectively.

## [Table of Contents](#)

- *Independence Hub, LLC*. In December 2004, we acquired a 20% interest in Independence, an affiliate of Enterprise. Independence will own the "Independence Hub" platform to be located in Mississippi Canyon block 920 in a water depth of 8,000 feet. Our investment in Independence Hub LLC ("Independence") was \$76.8 million and \$50.8 million as of September 30, 2006 and December 31, 2005, respectively, and our total investment is expected to be approximately \$84 million. We expect to complete our investment by the end of 2006. Further, we are party to a guaranty agreement with Enterprise to the extent of our ownership in Independence. The agreement states, among other things, that Enterprise and we guarantee performance under the Independence Hub Agreement between Independence and the producers group of exploration and production companies up to \$397.5 million, plus applicable attorneys' fees and related expenses. We have estimated the fair value of our share of the guarantee obligation to be immaterial at September 30, 2006 based upon the remote possibility of payments being made under the performance guarantee.
- *OTSL*. In July 2005, we acquired a 40% minority ownership interest in OTSL in exchange for our DP DSV, *Witch Queen*. Our investment in OTSL totaled \$10.8 million and \$11.5 million at September 30, 2006 and December 31, 2005, respectively. OTSL provides marine construction services to the oil and gas industry in and around Trinidad and Tobago, as well as the U.S. Gulf of Mexico. Further, in conjunction with our investment in OTSL, we entered into a one year, unsecured \$1.5 million working capital loan, initially bearing interest at 6% per annum, with OTSL. Interest is due quarterly beginning September 30, 2005 with a lump sum principal payment originally due to us on June 30, 2006. We have agreed to extend the lump sum principal payment due date and have increased the interest rate to three-month LIBOR plus 4.0%. In the first quarter of 2006, OTSL contracted the *Witch Queen* to us for certain services performed in the U.S. Gulf of Mexico. We incurred costs associated with the contract with OTSL totaling approximately \$7.7 million in 2006. The charter ended in March 2006.

Under the equity method of accounting, an impairment loss would be recorded whenever a decline in value of an equity investment below its carrying amount was determined to be other than temporary. In judging "other than temporary," we would consider the length of time and extent to which the fair value of the investment has been less than the carrying amount of the equity investment, the near-term and longer-term operating and financial prospects of the equity company and our longer-term intent of retaining the investment in the entity. We have reported a net loss of \$587,000 for the nine months ended September 30, 2006 related to our investment in OTSL. This net loss is an impairment indicator. However, we believe the current operating trend is temporary and have determined that the fair value of this investment, based on an estimate of its discounted cash flows, exceeds its carrying amount. As a result, there was no impairment at September 30, 2006.

### **Note 8 – Long-Term Debt**

#### *Senior Credit Facilities*

On July 3, 2006, we entered into a Credit Agreement (the "Credit Agreement") with Bank of America, N.A., as administrative agent and as lender, together with the other lenders (collectively, the "Lenders"). Under the Credit Agreement, we borrowed \$835 million in a term loan (the "Term Loan") and may borrow revolving loans (the "Revolving Loans") under a revolving credit facility up to an outstanding amount of \$300 million (the "Revolving Credit Facility"). In addition, the Revolving Credit Facility may be used for issuances of letters of credit up to an outstanding amount of \$50 million.

The Term Loan and the Revolving Loans (together, the "Loans") will, at our election, bear interest either in relation to Bank of America's base rate or to LIBOR. The Term Loan or portions thereof bearing interest at LIBOR will bear interest at a per annum rate equal to the LIBOR selected by us plus 2.00%. Our current election is to bear interest based on LIBOR. Our interest rate for the three months ended September 30, 2006 was approximately 7.5%.

## [Table of Contents](#)

As the rates for the Term Loan are subject to market influences and will vary over the term of the agreement, we entered into various interest rate swaps for \$200 million of notional value effective as of October 3, 2006. These hedges are designated as cash flow hedges and qualify for hedge accounting. Under the swaps we will receive interest based on three-month LIBOR and pay interest at an average fixed rate of 5.131% quarterly beginning October 3, 2006. The objective of the hedge is to eliminate the variability of cash flows in the interest payments for up to \$200 million of our Term Loan. Changes in the cash flows of the interest rate swap are expected to exactly offset the changes in cash flows (i.e., changes in interest rate payments) attributable to fluctuations in LIBOR on up to \$200 million of our Term Loan.

The Revolving Loans or portions thereof bearing interest at LIBOR will bear interest based on one, three or six month LIBOR at our election plus a margin ranging from 1.00% to 2.25%. Margins on the Revolving Loans will fluctuate in relation to the consolidated leverage ratio provided for in the Credit Agreement.

The Term Loan matures on July 1, 2013 and is subject to scheduled principal payments of \$2.1 million quarterly. We made our first quarterly principal payment on October 2, 2006. Quarterly principal payments are subject to adjustment for any prepayments on the Term Loan. The Revolving Loans mature on July 1, 2011. We may elect to prepay amounts outstanding under the Term Loan without prepayment penalty, but may not reborrow any amounts prepaid. We may prepay amounts outstanding under the Revolving Loans without prepayment penalty, and may reborrow amounts prepaid. In addition, upon the occurrence of certain dispositions or the issuance or incurrence of certain types of indebtedness, we may be required to prepay a portion of the Loans equal to the amount of proceeds received from such occurrences. Such prepayments will be applied first to the Term Loan, and any excess will be applied to the Revolving Loans, but will not reduce the available amount under the Revolving Credit Facility.

The Credit Agreement and the other documents entered into in connection with the Credit Agreement (together, the "Loan Documents") include terms, conditions and covenants that we consider customary for this type of transaction. The covenants include restrictions on the Company's and our subsidiaries' ability to grant liens, incur indebtedness, make investments, merge or consolidate, sell or transfer assets and pay dividends. The credit facility also places certain annual and aggregate limits on expenditures for acquisitions, investments in joint ventures and capital expenditures. The Credit Agreement requires us to meet minimum financial ratios for interest coverage, consolidated leverage and, until we achieve investment grade ratings from S&P and Moody's, collateral coverage.

If we or any of our subsidiaries do not pay any amounts owed to the Lenders under the Loan Documents when due, breach any other covenant to the Lenders or fail to pay other debt above a stated threshold, in each case, subject to applicable cure periods, then the Lenders have the right to stop making advances to us and to declare the Loans immediately due. The Credit Agreement includes other events of default that are customary for this type of transaction. As of September 30, 2006, we were in compliance with these covenants.

## [Table of Contents](#)

The Loans and our other obligations to the Lenders under the Loan Documents are guaranteed by all of our U.S. subsidiaries. In addition, those Loans and obligations are secured by a lien on substantially all of our assets and properties and all of the assets and properties of our U.S. subsidiaries, including substantially all of the assets and properties acquired by us as part of the Remington acquisition. The liens on the assets and properties of Cal Dive International, Inc. ("CDI") and its subsidiaries securing the Loans will automatically be released, and their obligations under the Loan Documents will automatically be released, upon an initial public offering of a minority interest in CDI common stock as described in Note 20 below. Dispositions of the equity in CDI and the transfer of CDI related assets from us and our subsidiaries to CDI or its subsidiaries (whether prior to, contemporaneously with, or after an initial public offering) are permitted transfers under the Credit Agreement. Under the terms of the Credit Agreement, mortgages on CDI's vessels and properties were not required, provided that the initial public offering was consummated by October 31, 2006. As the initial public offering was not completed as of October 31, 2006, we will be required to provide these mortgages no later than January 31, 2007, unless an initial public offering is completed prior to that date.

In July 2006, ERT sold its interest in Telemark and surrounding fields for \$15 million in cash (see Note 4 above). The sale of this asset constituted a disposition under the Credit Agreement and required either prepayment of the Term Loan by the amount of the sale or the escrow of proceeds until the amount could be invested in qualified replacement collateral. We elected to transfer the \$15 million cash received into an escrow account held by Bank of America for use in the purchase of or investment in qualified replacement assets. The funds held in escrow will be released upon submission of qualified capital expenditures to Bank of America. The restricted cash is reported in other assets, net as of September 30, 2006.

### *Convertible Senior Notes*

On March 30, 2005, we issued \$300 million of 3.25% Convertible Senior Notes due 2025 ("Convertible Senior Notes") at 100% of the principal amount to certain qualified institutional buyers. The Convertible Senior Notes are convertible into cash and, if applicable, shares of our common stock based on the specified conversion rate, subject to adjustment.

The Convertible Senior Notes can be converted prior to the stated maturity under certain triggering events as specified in the indenture governing the Convertible Senior Notes. To the extent we do not have alternative long-term financing secured to cover the conversion, the Convertible Senior Notes would be classified as a current liability in the accompanying balance sheet. During the third quarter of 2006, no conversion triggers were met.

Approximately 1.2 million shares and 1.3 million shares underlying the Convertible Senior Notes were included in the calculation of diluted earnings per share for the three and nine months ended September 30, 2006, respectively, because our average share price for the respective periods was above the conversion price of approximately \$32.14 per share. As a result, there would be a premium over the principal amount, which is paid in cash, and the shares would be issued on conversion. The maximum number of shares of common stock which may be issued upon conversion of the Convertible Senior Notes is 13,303,770.

As of September 30, 2006 and December 31, 2005, we estimated the fair value of our \$300 million (carrying value) fixed-rate debt to be \$400.7 million and \$433.7 million, respectively, based upon quoted market prices.

[Table of Contents](#)

*MARAD Debt*

At September 30, 2006, \$131.3 million was outstanding on our long-term financing for construction of the *Q4000*. This U.S. Government guaranteed financing is pursuant to Title XI of the Merchant Marine Act of 1936 which is administered by the Maritime Administration (“MARAD Debt”). The MARAD Debt is payable in equal semi-annual installments which began in August 2002 and matures 25 years from such date. The MARAD Debt is collateralized by the *Q4000*, with us guaranteeing 50% of the debt, and initially bore interest at a floating rate which approximated AAA Commercial Paper yields plus 20 basis points. As provided for in the MARAD Debt agreements, in September 2005, we fixed the interest rate on the debt through the issuance of a 4.93% fixed-rate note with the same maturity date (February 2027). In accordance with the MARAD Debt agreements, we are required to comply with certain covenants and restrictions, including the maintenance of minimum net worth, working capital and debt-to-equity requirements. As of September 30, 2006, we were in compliance with these covenants.

In September 2005, we entered into an interest rate swap agreement with a bank. The swap was designated as a cash flow hedge of a forecasted transaction in anticipation of the refinancing of the MARAD Debt from floating rate debt to fixed-rate debt that closed on September 30, 2005. The interest rate swap agreement totaled an aggregate notional amount of \$134.9 million with a fixed interest rate of 4.695%. On September 30, 2005, we terminated the interest rate swap and received cash proceeds of approximately \$1.5 million representing a gain on the interest rate differential. This gain was deferred and is being amortized over the remaining life of the MARAD Debt as an adjustment to interest expense.

*Other*

In connection with the acquisition of Helix Energy Limited, we entered into a two-year note payable to the former owners totaling approximately 3.1 million British Pounds, or approximately \$5.6 million, on November 3, 2005 (approximately \$5.9 million at September 30, 2006). The notes bear interest at a LIBOR based floating rate with interest payments due quarterly beginning January 1, 2006. Principal amounts are due in November 2007.

In connection with borrowings under our long-term debt financings described above, we paid deferred financing cost of \$11.1 million and \$11.0 million during the nine months ended September 30, 2006 and 2005, respectively. Deferred financing costs of \$28.4 million and \$18.7 million are included in other assets, net as of September 30, 2006 and December 31, 2005, respectively, and are being amortized over the life of the respective agreement.

Scheduled maturities of long-term debt and capital lease obligations outstanding as of September 30, 2006 were as follows (in thousands):

	<b>MARAD Debt</b>	<b>Convertible Senior Notes</b>	<b>Term Loan</b>	<b>Revolving Loan</b>	<b>Loan Notes</b>	<b>Capital Leases</b>	<b>Total</b>
Less than one year	\$ 3,823	\$ —	\$ 8,400	\$ —	\$ —	\$ 2,504	\$ 14,727
One to two years	4,014	—	8,400	—	5,871	2,163	20,448
Two to Three years	4,214	—	8,400	—	—	—	12,614
Three to four years	4,424	—	8,400	—	—	—	12,824
Four to five years	4,645	—	8,400	—	—	—	13,045
Over five years	110,167	300,000	793,000	—	—	—	1,203,167
Long-term debt	131,287	300,000	835,000	—	5,871	4,667	1,276,825
Current maturities	(3,823)	—	(8,400)	—	—	(2,504)	(14,727)
Long-term debt, less current maturities	<u>\$127,464</u>	<u>\$ 300,000</u>	<u>\$826,600</u>	<u>\$ —</u>	<u>\$ 5,871</u>	<u>\$ 2,163</u>	<u>\$1,262,098</u>

[Table of Contents](#)

We had unsecured letters of credit outstanding at September 30, 2006 totaling approximately \$7.8 million. These letters of credit primarily guarantee various contract bidding and insurance activities. The following table details our interest expense and capitalized interest for the three and nine months ended September 30, 2006 and 2005 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Interest expense	\$ 20,225	\$ 4,275	\$ 29,856	\$ 9,826
Interest income	(2,474)	(1,509)	(3,971)	(4,520)
Capitalized interest	(2,604)	(526)	(5,014)	(1,113)
Interest expense, net	<u>\$ 15,147</u>	<u>\$ 2,240</u>	<u>\$ 20,871</u>	<u>\$ 4,193</u>

**Note 9 – Income Taxes**

The effective tax rate of 35% and 34% for the three and nine months ended September 30, 2006, respectively, was lower than the effective rate of 37% and 36% for the same periods in 2005, respectively. The lower tax rate was due to our ability to realize foreign tax credits and oil and gas percentage depletion as a result of improved profitability both domestically and in foreign jurisdictions and implementation of the Internal Revenue Code section 199 manufacturing deduction as it primarily related to oil and gas production.

**Note 10 – Hedging Activities**

Our price risk management activities involve the use of derivative financial instruments to hedge the impact of market price risk exposures primarily related to our oil and gas production and variable interest rate exposure. All derivatives are reflected in our balance sheet at fair value, unless otherwise noted.

*Commodity Hedges*

During 2005 and the first nine months of 2006, we entered into various cash flow hedging costless collar contracts to stabilize cash flows relating to a portion of our expected oil and gas production. All of these qualified for hedge accounting. The aggregate fair value of the hedge instruments was a net asset (liability) of \$3.5 million and \$(13.4) million as of September 30, 2006 and December 31, 2005, respectively. We recorded unrealized gains of approximately \$8.6 million and \$11.0 million, net of tax expense of \$4.6 million and \$5.9 million, during the three and nine months ended September 30, 2006, respectively, in accumulated other comprehensive income (loss), a component of shareholders' equity, as these hedges were highly effective. For the three and nine months ended September 30, 2005, we recorded \$11.7 million and \$18.4 million, respectively, of unrealized losses, net of tax benefit of \$6.3 million and \$9.9 million, respectively. During the three and nine months ended September 30, 2006, we reclassified approximately \$614,000 and \$6.9 million of gains, respectively, from other comprehensive income to net revenues upon the sale of the related oil and gas production. For the three and nine months ended September 30, 2005, we reclassified approximately \$3.2 million and \$6.1 million, respectively, of losses from other comprehensive income to net revenues.

During the third quarter of 2005, hedge ineffectiveness related to cash flow hedge was a loss of \$1.8 million, net of tax benefit of \$951,000. The amount was recorded in earnings as a reduction in net revenues. Hedge ineffectiveness resulted from ERT's inability to deliver contractual oil and gas production in fourth quarter 2005 due primarily to the effects of Hurricanes *Katrina* and *Rita*. No hedge ineffectiveness was recorded during the three and nine months ended September 30, 2006.

[Table of Contents](#)

As of September 30, 2006, we had the following volumes under derivative contracts related to our oil and gas producing activities:

Production Period	Instrument Type	Average Monthly Volumes	Weighted Average Price
<b>Crude Oil:</b>			
October 2006 – December 2006	Collar	125 MBbl	\$44.00 — \$70.48
January 2007 – December 2007	Collar	50 MBbl	\$40.00 — \$62.15
<b>Natural Gas:</b>			
October 2006 – December 2006	Collar	600,000 MMBtu	\$ 7.25 — \$13.40
January 2007 – June 2007	Collar	550,000 MMBtu	\$ 8.00 — \$13.69
July 2007 – December 2007	Collar	333,333 MMBtu	\$ 7.50 — \$11.23

We have not entered into any hedge instruments subsequent to September 30, 2006. Changes in NYMEX oil and gas strip prices would, assuming all other things being equal, cause the fair value of these instruments to increase or decrease inversely to the change in NYMEX prices.

As of September 30, 2006, we had oil forward sales contracts for the period from October 2006 through June 2007. The contracts cover an average of 35.3 MBbl per month at a weighted average price of \$70.63. In addition, we had natural gas forward sales contracts for the period from October 2006 through June 2007. The contracts cover an average of 567,083 MMBtu per month at a weighted average price of \$9.26. Hedge accounting does not apply to these contracts.

#### *Interest Rate Hedge*

As the rates for our Term Loan are subject to market influences and will vary over the term of the agreement, we entered into various cash flow hedging interest rate swaps to stabilize cash flows relating to a portion of our interest payment for our Term Loan effective October 3, 2006. These interest rate swaps qualify for hedge accounting. See Note 8 above for a detailed discussion of our Term Loan.

#### **Note 11 – Foreign Currency**

The functional currency for our foreign subsidiaries, Well Ops (U.K.) Limited and Helix Energy Limited, is the applicable local currency (British Pound). Results of operations for these subsidiaries are translated into U.S. dollars using average exchange rates during the period. Assets and liabilities of these foreign subsidiaries are translated into U.S. dollars using the exchange rate in effect at the balance sheet date, and the resulting translation adjustment, which were unrealized gains of \$1.3 million and \$10.3 million for the three and nine months ended September 30, 2006, respectively, is included in accumulated other comprehensive income (loss), a component of shareholders' equity. For the three and nine months ended September 30, 2005, we recorded \$1.3 million and \$8.0 million, respectively, of unrealized losses in accumulated other comprehensive income related to translation adjustment. Deferred taxes have not been provided on foreign currency translation adjustments since we consider our undistributed earnings (when applicable) of our non-U.S. subsidiaries to be permanently reinvested. All foreign currency transaction gains and losses are recognized currently in the statements of operations. These amounts for the three months and nine months ended September 30, 2006 and 2005, respectively, were not material to our results of operations or cash flows.

Canyon Offshore, Inc. ("Canyon"), our ROV subsidiary, has operations in the United Kingdom and Southeast Asia sectors. Canyon conducts the majority of its operations in these regions in U.S. dollars, which it considers the functional currency. When currencies other than the U.S. dollar are to be paid or received, the resulting transaction gain or loss is recognized in the statements of operations. These amounts for the three and nine months ended September 30, 2006 and 2005, respectively, were not material to our results of operations or cash flows.

[Table of Contents](#)

In addition, FDI has operations in the Southeast Asia sector and conducts the majority of its operations in this region in U.S. dollars, which it considers the functional currency. When currencies other than the U.S. dollar are to be paid or received, the resulting transaction gain or loss is recognized in the statements of operations. These amounts for the three months ended September 30, 2006 were not material to our results of operations or cash flows.

**Note 12 – Comprehensive Income**

The components of total comprehensive income for the three and nine months ended September 30, 2006 and 2005 were as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Net income	\$ 57,833	\$ 43,221	\$ 183,970	\$ 95,758
Foreign currency translation gain (loss)	1,273	(1,347)	10,279	(8,024)
Unrealized gain (loss) on commodity hedges, net	8,552	(11,705)	10,994	(18,441)
Total comprehensive income	<u>\$ 67,658</u>	<u>\$ 30,169</u>	<u>\$ 205,243</u>	<u>\$ 69,293</u>

The components of accumulated other comprehensive income (loss) were as follows (in thousands):

	September 30, 2006	December 31, 2005
Cumulative foreign currency translation adjustment	\$ 17,258	\$ 6,979
Unrealized gain (loss) on commodity hedges, net	2,286	(8,708)
Accumulated other comprehensive income (loss)	<u>\$ 19,544</u>	<u>\$ (1,729)</u>

**Note 13 – Earnings Per Share**

Basic earnings per share (“EPS”) is computed by dividing the net income available to common shareholders by the weighted-average shares of outstanding common stock. The calculation of diluted EPS is similar to basic EPS, except the denominator includes dilutive common stock equivalents and the income included in the numerator excludes the effects of the impact of dilutive common stock equivalents, if any. The computation of basic and diluted per share amounts were as follows (in thousands):

	Three Months Ended September 30, 2006		Three Months Ended September 30, 2005	
	Income	Shares	Income	Shares
Earnings applicable per common share — Basic	\$ 57,029	91,531	\$ 42,671	77,526
Effect of dilutive securities:				
Stock options	—	386	—	770
Restricted shares	—	150	—	234
Employee stock purchase plan	—	4	—	—
Convertible Senior Notes	—	1,217	—	—
Convertible preferred stock	804	3,630	550	3,630
Earnings applicable per common share — Diluted	<u>\$ 57,833</u>	<u>96,918</u>	<u>\$ 43,221</u>	<u>82,160</u>

	Nine Months Ended September 30, 2006		Nine Months Ended September 30, 2005	
	Income	Shares	Income	Shares
Earnings applicable per common share — Basic	\$ 181,557	82,706	\$ 94,108	77,372
Effect of dilutive securities:				
Stock options	—	445	—	756
Restricted shares	—	132	—	204
Employee stock purchase plan	—	12	—	—
Convertible Senior Notes	—	1,284	—	—
Convertible preferred stock	2,413	3,630	1,650	3,630
Earnings applicable per common share — Diluted	\$ 183,970	88,209	\$ 95,758	81,962

There were no antidilutive stock options in the three and nine months ended September 30, 2006 and 2005, respectively. Net income for the diluted earnings per share calculation for the three and nine months ended September 30, 2006 and 2005 was adjusted to add back the preferred stock dividends on the 3.6 million shares.

#### Note 14 – Stock-Based Compensation Plans

We have three stock-based compensation plans: the 1995 Long-Term Incentive Plan, as amended (the “1995 Incentive Plan”), the 2005 Long-Term Incentive Plan (the “2005 Incentive Plan”) and the 1998 Employee Stock Purchase Plan (the “ESPP”). Under the 1995 Incentive Plan, a maximum of 10% of the total shares of common stock issued and outstanding may be granted to key executives and selected employees who are likely to make a significant positive impact on our reported net income as well as non-employee members of the Board of Directors. Following the approval by shareholders of the 2005 Incentive Plan on May 10, 2005, no further grants have been or will be made under the 1995 Plan. The aggregate number of shares that may be granted under the 2005 Incentive Plan is 6,000,000 shares (after adjustment for the December 8, 2005 two-for-one stock split) of which 4,000,000 shares may be granted in the form of restricted stock or restricted stock units and 2,000,000 shares may be granted in the form of stock options. The 1995 and 2005 Incentive Plans and the ESPP are administered by the Compensation Committee of the Board of Directors, which in the case of the 1995 and 2005 Incentive Plans, determines the type of award to be made to each participant and as set forth in the related award agreement, the terms, conditions and limitations applicable to each award. The committee may grant stock options, stock and cash awards. Awards granted to employees under the 1995 and 2005 Incentive Plan typically vest 20% per year for a five-year period (or in the case of certain stock option awards under the 1995 Incentive Plan, 33% per year for a three-year period); if in the form of stock options, have a maximum exercise life of ten years; and, subject to certain exceptions, are not transferable.

Prior to January 1, 2006, we used the intrinsic value method of accounting for our stock-based compensation. Accordingly, no compensation expense was recognized when the exercise price of an employee stock option was equal to the common share market price on the grant date and all other terms were fixed. In addition, under the intrinsic value method, on the date of grant for restricted shares, we recorded unearned compensation (a component of shareholders’ equity) that equaled the product of the number of shares granted and the closing price of our common stock on the grant date, and expense was recognized over the vesting period of each grant on a straight-line basis.

[Table of Contents](#)

We began accounting for our stock-based compensation plans under the fair value method beginning January 1, 2006. We continue to use the Black-Scholes option pricing model for valuing share-based payments and recognize compensation cost on a straight-line basis over the respective vesting period. No forfeitures were estimated for outstanding unvested options and restricted shares as historical forfeitures have been immaterial. We have selected the modified-prospective method of adoption, which requires that compensation expense be recorded for all unvested stock options and restricted stock beginning in 2006 as the requisite service is rendered. In addition to the compensation cost recognition requirements, tax deduction benefits for an award in excess of recognized compensation cost is reported as a financing cash flow rather than as an operating cash flow. The adoption did not have a material impact on our consolidated results of operations, earnings per share and cash flows. There were no stock option grants in the first nine months of 2006 or 2005.

The following table reflects our pro forma results if the fair value method had been used for the accounting for these plans for the three and nine months ended September 30, 2005 (in thousands, except per share amounts):

	<u>Three Months Ended</u> <u>September 30, 2005</u>	<u>Nine Months Ended</u> <u>September 30, 2005</u>
<b>Net income applicable to common shareholders:</b>		
As Reported	\$ 42,671	\$ 94,108
Add back: Stock-based compensation cost included in reported net income, net of taxes	218	476
Deduct: Total stock-based compensation cost determined under the fair value method, net of tax	(669)	(1,648)
<b>Pro Forma</b>	<u>\$ 42,220</u>	<u>\$ 92,936</u>
<b>Earnings per common share:</b>		
<b>Basic:</b>		
As reported	<u>\$ 0.55</u>	<u>\$ 1.22</u>
<b>Pro forma</b>	<u>\$ 0.55</u>	<u>\$ 1.20</u>
<b>Diluted:</b>		
As reported	<u>\$ 0.53</u>	<u>\$ 1.17</u>
<b>Pro forma</b>	<u>\$ 0.52</u>	<u>\$ 1.16</u>

For the purposes of pro forma disclosures, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model. The estimated fair value of the option is amortized to pro forma expense over the vesting period.

#### *Stock Options*

The options outstanding at September 30, 2006, have exercise prices as follows: 163,000 shares at \$8.57; 67,510 shares at \$9.32; 110,680 shares at \$10.92; 73,000 shares at \$10.94; 64,800 shares at \$11.00; 181,280 shares at \$12.18; 70,400 shares at \$13.91; and 165,400 shares ranging from \$8.14 to \$12.00, and a weighted average remaining contractual life of 5.99 years.

[Table of Contents](#)

Options outstanding are as follows:

	September 30, 2006		September 30, 2005	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Options outstanding at beginning of year	1,717,904	\$ 10.91	2,599,894	\$ 10.65
Granted	—	\$ —	—	\$ —
Exercised	(779,394)	\$ 11.26	(704,470)	\$ 10.29
Terminated	(42,440)	\$ 10.96	(23,920)	\$ 10.82
Options outstanding at September 30,	<u>896,070</u>	\$ 10.83	<u>1,871,504</u>	\$ 10.81
Options exercisable at September 30,	<u>528,318</u>	\$ 10.28	<u>1,106,319</u>	\$ 10.81

For the three and nine months ended September 30, 2006, \$356,000 and \$1.1 million was recognized as compensation expense related to stock options. No expense related to stock options was recognized in 2005 under the intrinsic value. Total compensation cost related to nonvested options not yet recognized at September 30, 2006 was approximately \$2.1 million. The weighted average vesting period related to nonvested stock options at September 30, 2006 was approximately two years.

*Restricted Shares*

We grant restricted shares to members of our board of directors, key executives and selected management employees. Compensation cost for each award is the product of market value of each share and the number of shares granted. The following table summarizes information about our restricted shares during the nine months ended September 30, 2006 and 2005:

	September 30, 2006		September 30, 2005	
	Shares	Fair Value(1)	Shares	Fair Value(1)
Restricted shares outstanding at beginning of year	384,902	\$ 25.59	—	\$ —
Granted	426,721	\$ 37.83	318,606	\$ 24.09
Vested	(48,708)	\$ 21.76	—	\$ —
Forfeited	(35,355)	\$ 29.98	(1,268)	\$ 19.56
Balance at September 30,	<u>727,560</u>	\$ 32.82	<u>317,338</u>	\$ 24.11

(1) Represents the average grant date market value, which is based on the quoted market price of the common stock on the business day prior to the date of grant.

For the nine months ended September 30, 2005, the amounts granted were recorded as unearned compensation, a component of shareholders' equity and charged to expense over the respective vesting periods on a straight-line basis. Amortization of unearned compensation totaled \$335,000 and \$733,000 for the three and nine months ended September 30, 2005, respectively. The balance in unearned compensation at December 31, 2005 was \$7.5 million and was reversed in January 2006 upon adoption of the fair value method. For the three and nine months ended September 30, 2006, \$1.6 million and \$4.1 million, respectively, was recognized as compensation expense related to restricted shares. Total compensation cost related to nonvested restricted stock awards not yet recognized at September 30, 2006 was approximately \$19.5 million. The weighted average vesting period related to nonvested restricted stock awards at September 30, 2006 was approximately four years.

[Table of Contents](#)

*Employee Stock Purchase Plan*

Effective May 12, 1998, we adopted a qualified, non-compensatory ESPP, which allows employees to acquire shares of common stock through payroll deductions over a six month period. The purchase price is equal to 85 percent of the fair market value of the common stock on either the first or last day of the subscription period, whichever is lower. Purchases under the plan are limited to 10 percent of an employee's base salary. Under this plan 97,598 and 79,878 shares of common stock were purchased in the open market at a weighted-average share price of \$33.12 and \$23.11 during the nine months ended September 30, 2006 and 2005, respectively. For the three and nine months ended September 30, 2006, we recognized \$490,000 and \$1.1 million, respectively, of compensation expense related to stock purchased under the ESPP. No expenses related to the ESPP were recognized in 2005 under the intrinsic value method.

**Note 15 — Stock Buyback Program**

On June 28, 2006, our Board of Directors authorized the Company to discretionarily purchase up to \$50 million of our common stock in the open market. The timing of any share repurchases under the program will depend on a variety of factors, including market conditions, and may be suspended and discontinued at any time. As of September 30, 2006, no shares were purchased under this program. In October 2006, we purchased approximately 1.1 million shares of our common stock for a weighted average price of \$29.22 per share, or \$31.4 million.

**Note 16 – Business Segment Information (in thousands)**

In the fourth quarter of 2005, we modified our segment reporting from three reportable segments to four reportable segments. Our operations are conducted through the following reportable segments: Contracting Services (formerly known as our Deepwater Contracting), Shelf Contracting, Oil and Gas (formerly known as our Oil and Gas Production) and Production Facilities. The realignment of reportable segments was attributable to organizational changes within the Company as it is related to separating Marine Contracting into two reportable segments — Contracting Services and Shelf Contracting. Contracting Services operations include deepwater pipelay, well operations and robotics. Shelf Contracting operations consist of assets deployed primarily for diving-related activities and shallow water construction. See Note 20 for discussion of the potential initial public offering of Cal Dive International, Inc. ("CDI") common stock (represented by the Shelf Contracting segment). As a result, segment disclosures for the prior period have been restated to conform to the current period presentation. All material intercompany transactions between the segments have been eliminated.

[Table of Contents](#)

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
<b>Revenues —</b>

Total	<u>\$ 3,709,947</u>	<u>\$ 1,660,864</u>

Intercompany segment revenues during the three and nine months ended September 30, 2006 and 2005 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Contracting services	\$ 12,581	\$ 10,413	\$ 30,773	\$ 18,417
Shelf contracting	9,233	109	13,979	854
Total	<u>\$ 21,814</u>	<u>\$ 10,522</u>	<u>\$ 44,752</u>	<u>\$ 19,271</u>

[Table of Contents](#)

Intercompany segment profit (which only relates to intercompany capital projects) during the three and nine months ended September 30, 2006 and 2005 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Contracting services	\$ 1,909	\$ —	\$ 2,157	\$ —
Shelf contracting	4,098	—	4,848	—
Total	<u>\$ 6,007</u>	<u>\$ —</u>	<u>\$ 7,005</u>	<u>\$ —</u>

During the three and nine months ended September 30, 2006, we derived \$50.9 million and \$113.2 million, respectively, of our revenues from the U.K. sector, utilizing \$208.1 million of our total assets in this region. During the three and nine months ended September 30, 2005, we derived \$14.2 million and \$62.9 million, respectively, of our revenues from the U.K. sector utilizing \$136.8 million of our total assets in this region. The majority of the remaining revenues were generated in the U.S. Gulf of Mexico.

**Note 17 – Related Party Transactions**

In April 2000, ERT acquired a 20% working interest in *Gunnison*, a Deepwater Gulf of Mexico prospect of Kerr-McGee Oil & Gas Corp. Financing for the exploratory costs of approximately \$20 million was provided by an investment partnership (OKCD Investments, Ltd. or “OKCD”) in exchange for a revenue interest that is an overriding royalty interest of 25% of our 20% working interest. The investors of this entity include current and former Helix senior management. Production began in December 2003. Payments to OKCD from ERT totaled \$8.8 million and \$28.2 million in the three and nine months ended September 30, 2006, respectively, and \$7.5 million and \$20.8 million in the three and nine months ended September 30, 2005, respectively.

**Note 18 – Commitments and Contingencies***Commitments*

We plan to convert a certain Contracting Services vessel (the *Caesar*, acquired in January 2006 for \$27.5 million in cash) into a deepwater pipelay vessel. Total conversion costs are estimated to be approximately \$90 million, of which approximately \$5.1 million had been incurred and \$19.1 million had been committed at September 30, 2006. In addition, we will upgrade the *Q4000* to include drilling via the addition of a modular-based drilling system for approximately \$40 million, of which approximately \$7.8 million had been incurred and approximately \$24.5 million had been committed at September 30, 2006.

In addition, in September 2006, we announced our plan to commit to the construction of a \$160 million multi-service dynamically positioned dive support/ well intervention vessel that will be capable of working in the North Sea and West of Shetlands to support our contract extension to provide Light Well Intervention services for Shell UK Ltd. We expect this vessel to join our fleet in 2008. At September 30, 2006, we have committed approximately \$3.8 million to this project through the use of a letter of credit.

Further, as of September 30, 2006, we committed to an additional estimated \$159.0 million for development and drilling costs related to our oil and gas properties.

*Contingencies*

We are involved in various routine legal proceedings, including claims for personal injury under the General Maritime Laws of the United States and the Jones Act as a result of alleged negligence. In addition, we, from time to time, incur other claims, such as contract disputes, in the normal course of business. In that regard, in 1998, one of our subsidiaries, Cal Dive Offshore Ltd (“CDO”) entered into a subcontract with Seacore Marine Contractors Limited (“Seacore”) to provide the *Sea Sorceress* to Seacore for use in performing a contract between Seacore and Coflexip Stena Offshore Newfoundland (“Coflexip”). Due to various difficulties, that contract was terminated and an arbitration to recover damages was commenced. We were not a party to that arbitration. A liability finding was made by the arbitrator against Seacore and in favor of Coflexip. Seacore and Coflexip settled this matter, with Seacore paying Coflexip CAD\$6.95 million. Seacore then initiated an arbitration proceeding against CDO seeking payment of that amount, and subsequently commenced lawsuit against us seeking the same recovery. Trial is scheduled for January 2007.

On December 2, 2005, ERT received notice (the “December 2005 Order”) from the U.S. Department of the Interior Minerals Management Service (“MMS”) that the price threshold for both oil and gas was exceeded for 2004 production and that royalties are due on such production notwithstanding the provisions of the Deep Water Royalty Relief Act of 2005 (“DWRRA”), which was intended to stimulate exploration and production of oil and natural gas in the deepwater Gulf of Mexico by providing relief from the obligation to pay royalty on certain federal leases. The only ERT leases affected by this dispute are Garden Banks Blocks 667, 668 and 669 (“*Gunnison*”) (“ERT’s Leases”). On May 2, 2006, the MMS issued another order (the “May 2006 Order”) that superseded and replaced the December 2005 Order, and claimed that royalties are due on gas production in 2003 and 2004. The May 2006 Order also seeks interest on all royalties allegedly due. ERT filed a timely notice of appeal with respect to both the December 2005 Order and the May 2006 Order. Other operators in the Deep Water Gulf of Mexico who are seeking royalty relief under the DWRRA, including Kerr-McGee Oil and Gas Corporation (“Kerr-McGee”), the operator of *Gunnison*, have received notices similar to ERT’s and have initiated an appeal process. In March of 2006, Kerr-McGee filed a lawsuit in federal district court challenging the enforceability of price thresholds in certain deepwater Gulf of Mexico Leases, such as ERT’s. We do not anticipate that the MMS director will issue decisions in ERT’s or the other companies’ administrative appeals until the Kerr-McGee litigation has been resolved. As a result of this dispute, we have recorded reserves for the disputed royalties (and any other royalties that may be claimed for production during 2005) plus interest at 5% for our portion of the *Gunnison* related MMS claim. The total reserved amount at September 30, 2006 was approximately \$37.1 million. At this time, it is not anticipated that any penalties would be assessed even if ERT is unsuccessful in its appeal.

Although the above discussed matters may have the potential for additional liability and may have an impact on our consolidated financial results for a particular quarterly or annual reporting period, we believe the outcome of all such matters and proceedings will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

**Note 19 – Recently Issued Accounting Principles**

In June 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109* (“FIN 48”), which clarifies the accounting for uncertainty in income taxes recognized in accordance with FASB Statement No. 109, *Accounting for Income Taxes* (“SFAS No. 109”). FIN 48 clarifies the application of SFAS No. 109 by defining criteria that an individual tax position must meet for any part of the benefit of that position to be recognized in the financial statements. Additionally, FIN 48 provides guidance on the measurement, derecognition, classification and disclosure of tax positions, along with accounting for the related interest and penalties. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. We are currently evaluating the impact the adoption of FIN 48 will have on our financial position, results of operations and cash flows.

## [Table of Contents](#)

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* ("SFAS No. 157"). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. We are currently evaluating the impact, if any, of this statement.

### **Note 20 – Pending Transaction**

On May 31, 2006, we announced that CDI, a wholly owned subsidiary of the Company, filed a Registration Statement on Form S-1 with the SEC for the initial public offering of a minority interest in CDI's common stock. Amendments to the Form S-1 were subsequently filed; however, the amended registration statement has not yet become effective. CDI represents our Shelf Contracting segment that provides manned diving, pipelay and pipe burial services to the offshore oil and natural gas industry. These securities may not be sold nor may offers to buy be accepted prior to the time the amended registration statement becomes effective.

### **Note 21 – Transfer to New York Stock Exchange**

Effective July 18, 2006, our common stock was no longer quoted on the NASDAQ and was listed and began trading on the New York Stock Exchange under the ticker symbol HLX.

### **Note 22 – Subsequent Events**

Subsequent to September 30, 2006, we acquired a 58% interest in Seatrac Pty Ltd. ("Seatrac") for total consideration of approximately \$12.5 million, including approximately \$9.1 million paid to existing shareholders, and \$3.4 million for subscription of new Seatrac shares. The proceeds from the newly issued shares will be used by the entity to pay down existing indebtedness of approximately \$1.9 million and to provide funding for capital expenditures of \$1.5 million. Seatrac is a subsea well intervention and engineering services company located in Perth, Australia. Under the terms of the purchase agreement, we will be obligated to purchase the remaining 42% of the shares outstanding from the existing shareholders for \$9.1 million upon Seatrac's successfully obtaining a significant commercial contract. In the event that the conditions required for the additional purchase are not met, we will be under no obligation to purchase the remaining 42% of Seatrac. In addition, the agreement with the existing shareholders provides for an earnout period of five years from the closing date for the purchase of the remaining 42% of Seatrac. If during this five-year period Seatrac achieves certain financial performance objectives, the shareholders will be entitled to additional consideration of approximately \$4.6 million.

Further, in October 2006, we, along with Kommandor RØMØ A/S ("Kommandor RØMØ"), a Danish corporation, formed Kommandor, LLC ("Kommandor"), a Delaware limited liability company, to convert a ferry into a dynamically-positioned construction services vessel. Upon completion of the initial conversion, this vessel will be leased under a bareboat charter to ERT for further conversion and subsequent use as a floating production system in the Deepwater Gulf of Mexico, initially for the Phoenix field (see Liquidity and Capital Resources in Management's Discussion and Analysis of Financial Condition and Results of Operations). Our initial investment for our 50% interest in Kommandor was \$15 million in cash. Further, we have agreed to provide a loan facility of up to \$40 million and Kommandor RØMØ has agreed to loan \$5 million to the newly formed entity for purposes of completing the initial conversion. Kommandor has received a commitment letter from a financial institution for term financing for \$45 million of the initial conversion upon delivery of the vessel under the bareboat charter. Proceeds from this financing will be used to repay amounts loaned to Kommandor by us and Kommandor RØMØ. Conversion of the vessel is expected to be completed in two phases. The first phase is expected to be completed by the end of 2007. The second phase of the conversion is expected to be completed by mid 2008. Estimated cost of conversion for the second phase is approximately \$100 million, in which we expect to participate 100%.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

### **FORWARD-LOOKING STATEMENTS AND ASSUMPTIONS**

This Quarterly Report on Form 10-Q contains forward-looking statements that involve risks, uncertainties and assumptions that could cause our results to differ materially from those expressed or implied by such forward-looking statements. All statements, other than statements of historical fact, are statements that could be deemed "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including, without limitation, any projections of revenue, gross margin, expenses, earnings or losses from operations, or other financial items; future production volumes, results of exploration, exploitation, development, acquisition and operations expenditures, and prospective reserve levels of property or wells; any statements of the plans, strategies and objectives of management for future operations; any statement concerning developments, performance or industry rankings relating to services; any statements regarding future economic conditions or performance; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. The risks, uncertainties and assumptions referred to above include the performance of contracts by suppliers, customers and partners; employee management issues; complexities of global political and economic developments, other risks described under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2005 and in Item 1A of Part II of this report on Form 10-Q and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2006; We assume no obligation and do not intend to update these forward-looking statements.

### **CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements. We prepare these financial statements in conformity with accounting principles generally accepted in the United States. As such, we are required to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. We base our estimates on historical experience, available information and various other assumptions we believe to be reasonable under the circumstances. These estimates may change as new events occur, as more experience is acquired, as additional information is obtained and as our operating environment changes. Due to the Remington acquisition, we have identified additional critical accounting policies related to our Oil and Gas segment. Please read the following discussion in conjunction with our "Critical Accounting Policies and Estimates" as disclosed in our Form 10-K for the year ended December 31, 2005.

#### ***Exploratory Drilling Costs***

The costs of drilling an exploratory well are capitalized as uncompleted wells pending the determination of whether the well has found proved reserves. If proved reserves are not found, these capitalized costs are charged to expense. On the other hand, the determination that proved reserves have been found results in the continued capitalization of the drilling costs of the well and its reclassification as a well containing proved reserves. At times, it may be determined that an exploratory well may have found hydrocarbons at the time drilling is completed, but it may not be possible to classify the reserves at that time. In this case, we may continue to capitalize the drilling costs as an uncompleted well beyond one year when the well has found a sufficient quantity of reserves to justify its completion as a producing well and the company is making sufficient progress assessing the reserves and the economic and operating viability of the project, or the reserves are deemed to be proved. At that time the well is either reclassified as a proved well or is considered impaired and its costs, net of any salvage value, are charged to expense.

## [Table of Contents](#)

Occasionally, we may choose to salvage a portion of an unsuccessful exploratory well in order to continue exploratory drilling in an effort to reach the target geological structure/formation. In such cases, we charge only the unusable portion of the well bore to dry hole expense, and we continue to capitalize the costs associated with the salvageable portion of the well bore and add the costs to the new exploratory well. In certain situations, the well bore may be carried for more than one year beyond the date drilling in the original well bore was suspended. This may be due to the need to obtain, and/or analyze the availability of, equipment or crews or other activities necessary to pursue the targeted reserves or evaluate new or reprocessed seismic and geographic data. If, after we analyze the new information and conclude that we will not reuse the well bore or if the new exploratory well is determined to be unsuccessful after we complete drilling, we will charge the capitalized costs to dry hole expense.

### **Recently Issued Accounting Principles**

In June 2006, the FASB issued FIN 48, which clarifies the accounting for uncertainty in income taxes recognized in accordance with FASB Statement No. 109, *Accounting for Income Taxes* ("SFAS No. 109"). FIN 48 clarifies the application of SFAS No. 109 by defining criteria that an individual tax position must meet for any part of the benefit of that position to be recognized in the financial statements. Additionally, FIN 48 provides guidance on the measurement, derecognition, classification and disclosure of tax positions, along with accounting for the related interest and penalties. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. We are currently evaluating the impact the adoption of FIN 48 will have on our financial position, results of operations and cash flows.

In September 2006, the FASB issued SFAS No. 157. This statement defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. We are currently evaluating the impact, if any, of this statement.

### **RESULTS OF OPERATIONS**

In the fourth quarter of 2005, we modified our segment reporting from three reportable segments to four reportable segments. Our operations are conducted through the following reportable segments: Contracting Services (formerly known as Deepwater Contracting), Shelf Contracting, Oil and Gas (formerly known as Oil and Gas Production) and Production Facilities. The realignment of reportable segments was attributable to organizational changes within the Company as it is related to separating Marine Contracting into two reportable segments — Contracting Services and Shelf Contracting. Contracting Services operations include deepwater pipelay, well operations and robotics. Shelf Contracting operations consist of assets deployed primarily for manned diving and shallow water pipelay and pipe burial services. See Note 20 for discussion of potential initial public offering of CDI common stock (represented by the Shelf Contracting segment). As a result, segment disclosures for the prior period have been restated to conform to the current period presentation. All material intercompany transactions between the segments have been eliminated.

[Table of Contents](#)

The following table sets forth for the periods presented vessel utilization rates for each of the major categories of our fleet, oil and gas prices realized, oil and gas production and reflects the increase or decrease in oil and gas sales revenue due to the changes in prices and volumes (in thousands, except percentages and prices):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Our average vessel utilization rate(1):				
Contracting Services:				
Pipelay	66%	100%	84%	88%
Well operations	86%	94%	80%	80%
Remotely operated vehicles	82%	67%	73%	68%
Shelf Contracting	83%	65%	84%	55%
Gas production volume (Mcf)	8,533	4,909	17,888	14,549
Gas sales revenue	\$ 64,965	\$ 41,703	\$ 144,360	\$ 107,548
Price per Mcf(2)	\$ 7.61	\$ 8.49	\$ 8.07	\$ 7.39
Increase (decrease) in gas sales revenue due to:				
Change in prices	\$ (4,328)		\$ 9,867	
Change in production volume	27,590		26,945	
Total increase in gas sales revenue	<u>\$ 23,262</u>		<u>\$ 36,812</u>	
Oil production volume (Bbls)	1,185	587	2,382	1,961
Oil sales revenue	\$ 74,147	\$ 31,859	\$ 148,426	\$ 93,753
Price per barrel(2)	\$ 62.55	\$ 54.30	\$ 62.31	\$ 47.80
Increase (decrease) in oil sales revenue due to:				
Change in prices	\$ 4,841		\$ 28,455	
Change in production volume	37,447		26,218	
Total increase in oil sales revenue	<u>\$ 42,288</u>		<u>\$ 54,673</u>	
Total production (Mcf)	15,646	8,430	32,181	26,317
Price per Mcf(2)	\$ 8.89	\$ 8.73	\$ 9.10	\$ 7.65

(1) Average vessel utilization rate is calculated by dividing the total number of days the vessels in this category generated revenues by the total number of calendar days in the applicable period.

(2) Reflects realized prices, net of hedging impact.

Presenting the expenses of our Oil and Gas segment on a cost per Mcfe of production basis normalizes for the impact of production gains/losses and provides a measure of expense control efficiencies. The following table highlights certain relevant expense items on this basis with barrels of oil converted to Mcfe at a ratio of one barrel to six Mcf:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Lease operating expenses(1)	\$ 2.16	\$ 1.82	\$ 2.17	\$ 1.49
Depreciation, depletion and amortization	\$ 3.13	\$ 2.22	\$ 2.77	\$ 2.09
Selling and administrative expense	\$ 0.50	\$ 0.63	\$ 0.56	\$ 0.52

(1) Excludes exploration expense of \$19.5 million, \$928,000, \$41.3 million and \$6.0 million for the three months ended September 30, 2006 and 2005 and nine months ended September 30, 2006 and 2005, respectively. Exploration expense is not a component of lease operating expense.

**Comparison of Three Months Ended September 30, 2006 and 2005**

**Net Revenues.** Of the overall \$165.1 million increase in revenues, \$25.5 million was generated by the Contracting Services segment, \$70.0 million by the Shelf Contracting segment and \$69.6 million by the Oil and Gas segment. Contracting Services revenues increased primarily due to improved market demand (resulting in significantly improved contract pricing for the Pipelay and ROV divisions) and the addition of the Helix Energy Limited acquisition in November 2005, offset partially by lower utilization in the Pipelay and Well Operations divisions due to vessel upgrades and unscheduled downtime. Shelf Contracting revenues increased due to improved market demand, much of which continued to be the result of damages sustained in the 2005 hurricanes in the Gulf of Mexico. This resulted in significantly improved utilization rates and contract pricing for all divisions within the Shelf Contracting segment. Further, Shelf Contracting's revenues increased in the three months ended September 30, 2006 compared with 2005 directly as a result of the acquisition of the Torch and Acergy vessels in the third and fourth quarters of 2005.

Oil and Gas revenue increased \$69.6 million, or 92%, during the three months ended September 30, 2006 compared with the prior year period. The increase was primarily due to higher oil and natural gas production volumes primarily attributable to the Remington acquisition which closed on July 1, 2006. Production volume from the former Remington properties in the third quarter was approximately 7.3 Bcfe.

**Gross Profit.** Gross profit of \$130.5 million for the three months ended September 30, 2006 represented a 57% increase compared to the \$82.9 million recorded in the comparable prior year period. Contracting Services gross profit increased to \$32.3 million for the three months ended September 30, 2006, from \$24.4 million in the third quarter of 2005. The increase was primarily attributable to improved contract pricing for the Pipelay, Well Operations and ROV divisions and gross profit contribution from the Helix Energy Limited acquisition in November 2005. Shelf Contracting gross profit increased to \$53.6 million for the three months ended September 30, 2006, from \$17.7 million in the third quarter of 2005. As previously discussed, the increase was primarily attributable to the Torch and Acergy acquisitions, improved utilization rates and increased average contract pricing.

Oil and Gas segment gross profit increased \$3.8 million, to \$44.6 million, due primarily to higher production volume as a result of the Remington acquisition. This increase was negatively impacted in the third quarter by the following:

- Exploration expense of \$19.5 million which included dry hole cost of approximately \$16.9 million, delay rentals of approximately \$509,000 and geological and geophysical ("G&G") expense of approximately \$2.1 million, compared with \$928,000 of exploration costs in the third quarter of 2005.
- Higher initial depreciation, depletion and amortization rates related to production from former Remington properties versus our historical rates on our mature properties; and
- Hurricanes *Katrina* and *Rita* inspection and repair work which totaled approximately \$5.8 million, partially offset by insurance recoveries of \$1.6 million (none in the third quarter of 2005).

Gross margins in the third quarter of 2006 were 35% as compared to 40% in the comparable prior year period. Contracting Services margins remained at 29% in third quarter 2006, Shelf Contracting margins increased 9 points to 45% in third quarter 2006 from 36% in the prior year period, and Oil and Gas margins decreased 23 points to 31% in the third of quarter 2006 from 54% in the same period in 2005 due to the factors noted above.

## [Table of Contents](#)

*Selling and Administrative Expenses.* Selling and administrative expenses of \$30.3 million for the three months ended September 30, 2006 were \$14.4 million higher than same period in 2005. The increase was due primarily to higher overhead to support our growth. Selling and administrative expenses was 8% of revenues for both third quarter of 2006 and 2005.

*Equity in Earnings of Investments.* Equity in earnings of our 50% investment in Deepwater Gateway, L.L.C. increased to \$5.1 million in third quarter 2006 compared with \$3.1 million in third quarter 2005. This increase is partially offset by equity loss of \$3.2 million from our 40% minority ownership interest in OTSL in the third quarter 2006 compared with equity earnings of \$672,000 in third quarter 2005.

*Net Interest Expense and Other.* We reported interest and other expense of \$15.1 million for the three months ended September 30, 2006 compared to \$2.8 million in the prior year period. Net interest expense of \$15.1 million in the third quarter of 2006 was higher than the \$2.2 million incurred in third quarter 2005 due primarily to the \$835 million Term Loan we entered into in July 2006. Offsetting the increase in interest expense was \$2.6 million of capitalized interest in third quarter of 2006, compared with \$526,000 in the same period in 2005, which related primarily to our investment in Independence Hub and various ERT properties.

*Provision for Income Taxes.* Income taxes increased to \$31.4 million for the three months ended September 30, 2006 compared to \$25.1 million in the prior year period, primarily due to increased profitability. The effective tax rate of 35% in the third quarter of 2006 was lower than the 37% effective tax rate for third quarter 2005 due to our ability to realize foreign tax credits and oil and gas percentage depletion due to improved profitability both domestically and in foreign jurisdictions and implementation of the Internal Revenue Code section 199 manufacturing deduction as it primarily related to oil and gas production.

### **Comparison of Nine Months Ended September 30, 2006 and 2005**

*Net Revenues.* Of the overall \$435.6 million increase in revenues, \$102.0 million was generated by the Contracting Services segment, \$233.6 million by the Shelf Contracting segment and \$100.0 million by the Oil and Gas segment. Contracting Services revenues increased primarily due to improved market demand (resulting in improved contract pricing for the Pipelay, Well Operations divisions and the ROV division) and the addition of the *Express* acquired from Torch in 2005 and Helix Energy Limited acquired in 2005. In addition, revenue increased due to improved market demand, much of which was the result of damages sustained in the 2005 hurricanes in the Gulf of Mexico. This resulted in significantly improved utilization rates and an overall increase in pricing for our Shelf Contracting services.

Oil and Gas revenue increased \$100.0 million, or 48%, during the nine months ended September 30, 2006 compared with the prior year period. The increase was primarily due to increases in oil and natural gas production. Production volume increased to 32.2 Bcfe, or approximately 22% from the same period in 2005. The increase was mainly attributable to the full third quarter impact of the Remington acquisition, partially offset by continued pipeline shut-ins on certain fields. Oil and Gas revenue also increased due to higher oil and gas prices realized in the nine months ended September 30, 2006 as compared to the same period in 2005. The average realized natural gas price, net of hedges in place, during the nine months ended September 30, 2006 was 9% higher than the price realized in 2005. Average realized oil prices, net of hedges in place, increased 30% compared with the average price realized in the same period in 2005.

## [Table of Contents](#)

*Gross Profit.* Gross profit of \$364.4 million for the nine months ended September 30, 2006 represented a 95% increase compared to the \$187.2 million recorded in the comparable prior year period. Contracting Services gross profit increased to \$91.7 million for the nine months ended September 30, 2006, from \$42.2 million in the first nine months of 2005. The increase was primarily attributable to improved contract pricing for the Pipelay, Well Operations and ROV divisions, including the contribution of the *Express* for the nine months ended September 30, 2006.

Shelf Contracting gross profit increased to \$164.0 million for the nine months ended September 30, 2006, from \$37.6 million in the first nine months of 2005. As previously discussed, the increase was primarily attributable to additional gross profit derived from the Torch and Acergy acquisitions, improved utilization rates and increased contract pricing.

Oil and Gas gross profit increased slightly from \$107.4 million to \$108.7 million. Gross profit was impacted by \$41.3 million of exploration costs incurred during the nine months ended September 30, 2006 compared with \$6.0 million incurred in the same period in 2005. The increase in exploration costs was primarily due to dry hole costs of \$21.7 million related to the Tulane prospect as a result of mechanical difficulties experienced in the drilling of this well. The well was subsequently plugged and abandoned in the first quarter of 2006. In addition, we incurred dry hole costs totaling approximately \$15.9 million in the third quarter of 2006 associated with two deep shelf wells commenced by Remington prior to the acquisition. In addition, included in exploration costs, we expensed \$2.9 million of G&G costs in the first nine months of 2006, compared with \$5.3 million in the same period in 2005. Lastly, we expensed inspection and repair costs of approximately \$14.9 million as a result of Hurricanes *Katrina* and *Rita*, partially offset by \$4.3 million in insurance recoveries in the first nine months of 2006. No hurricane inspection and repair costs were incurred in the nine months ended September 30, 2005. These decreases were offset by higher commodity prices realized and oil and gas production as discussed above. In addition, in 2005 ERT recorded \$2.7 million of losses associated with hedge instrument ineffectiveness as a result of production shut-ins caused by the aforementioned hurricanes. No hedge ineffectiveness was recorded in 2006.

Gross margins in the first nine months of 2006 were 38% as compared to 35% in the comparable prior year period. Contracting Services margins increased 9 points to 30% in the nine months ended September 30, 2006 compared with 21% in the prior year period, and Shelf Contracting margins increased 16 points to 46% in the first nine months of 2006 from 30% in the prior year period. The increases were due to the factors noted above. In addition, margins in the Oil and Gas segment decreased 17 points to 35% in the nine months ended September 30, 2006 from 52% in the same period in 2005, primarily due to the dry hole costs. Oil and Gas gross margins in 2005 were impacted by impairment analysis on certain properties which resulted in \$4.4 million of impairments and expensed well work and \$5.3 million of G&G costs for ERT's offshore property acquisitions.

*Selling and Administrative Expenses.* Selling and administrative expenses of \$78.8 million for the nine months ended September 30, 2006 were \$37.2 million higher than the \$41.6 million incurred in the nine months ended September 30, 2005. The increase was due primarily to higher overhead to support our growth. Selling and administrative expenses were at 8% of revenues for both periods in 2006 and 2005.

*Equity in Earnings of Investments.* Equity in earnings of our 50% investment in Deepwater Gateway, L.L.C. increased to \$13.1 million for the nine months ended September 30, 2006 compared with \$7.5 million in the first nine months of 2005. Further, equity in earnings (losses) from our 40% minority ownership interest in OTSL for the nine months ended September 30, 2006 totaled approximately \$(587,000) compared with \$672,000 in the first nine months of 2005.

## [Table of Contents](#)

*Net Interest Expense and Other.* We reported interest and other expense of \$20.5 million for the nine months ended September 30, 2006 compared to \$4.9 million in the prior year period. Net interest expense of \$20.9 million for the nine months ended September 30, 2006 was higher than the \$4.2 million incurred in the same period in 2005. Approximately \$15.7 million of the increase was related to our \$835 million Term Loan which closed in July 2006 and \$2.4 million of the increase was related to our \$300 million Convertible Senior Notes which closed in March 2005. Offsetting the increase in interest expense was \$5.0 million of capitalized interest in the nine months ended September 30, 2006, compared with capitalized interest of \$1.1 million in the prior year period, which related primarily to our investment in Independence Hub and various ERT properties.

*Provision for Income Taxes.* Income taxes increased to \$96.4 million for the nine months ended September 30, 2006 compared to \$54.4 million in the prior year period, primarily due to increased profitability. The effective tax rate of 34% for the nine months ended September 30, 2006 was lower than the 36% effective tax rate for same period in 2005 due to our ability to realize foreign tax credits and oil and gas percentage depletion due to improved profitability both domestically and in foreign jurisdictions and implementation of the Internal Revenue Code section 199 manufacturing deduction as it primarily related to oil and gas production.

### **LIQUIDITY AND CAPITAL RESOURCES**

Total debt as of September 30, 2006 was \$1.3 billion, comprised primarily of \$835 million term loan which matures in 2013, \$300 million of Convertible Senior Notes which mature in 2025 and \$131.3 million of MARAD debt which matures in 2027. We also have a \$300 million revolving facility which was undrawn as of September 30, 2006. In addition, as of September 30, 2006, we had \$48.4 million of restricted cash (included in other assets, net). For a discussion of expected uses of our cash related to the exploration and development of our oil and gas properties, see "Investing Activities" below.

On June 28, 2006, our Board of Directors authorized the Company to discretionarily purchase up to \$50 million of our common stock in the open market. The timing of any share repurchases under the program will depend on a variety of factors, including market conditions, and may be suspended and discontinued at any time. As of September 30, 2006, no shares were purchased under this program. In October 2006, we purchased approximately 1.1 million shares of our common stock for a weighted average price of \$29.22 per share, or \$31.4 million.

*Hedging Activities.* Our price risk management activities involve the use of derivative financial instruments to hedge the impact of market price risk exposures primarily related to our oil and gas production and variable interest rate exposure. All derivatives are reflected in our balance sheet at fair value, unless otherwise noted.

## [Table of Contents](#)

### *Commodity Hedges*

During 2005 and the first nine months of 2006, we entered into various cash flow hedging costless collar contracts to stabilize cash flows relating to a portion of our expected oil and gas production. All of these qualified for hedge accounting. The aggregate fair value of the hedge instruments was a net asset (liability) of \$3.5 million and \$(13.4) million as of September 30, 2006 and December 31, 2005, respectively. We recorded unrealized gains of approximately \$8.6 million and \$11.0 million, net of tax expense of \$4.6 million and \$5.9 million, during the three and nine months ended September 30, 2006, respectively, in accumulated other comprehensive income, a component of shareholders' equity, as these hedges were highly effective. For the three and nine months ended September 30, 2005, we recorded \$11.7 million and \$18.4 million, respectively, of unrealized losses, net of tax benefit of \$6.3 million and \$9.9 million, respectively. During the three and nine months ended September 30, 2006, we reclassified approximately \$614,000 and \$6.9 million of gains, respectively, from other comprehensive income to net revenues upon the sale of the related oil and gas production. For the three and nine months ended September 30, 2005, we reclassified approximately \$3.2 million and \$6.1 million, respectively, of losses from other comprehensive income to net revenues.

During the third quarter of 2005, hedge ineffectiveness related to cash flow hedge was a loss of \$1.8 million, net of tax benefit of \$951,000. The amount was recorded in earnings as a reduction in net revenues. Hedge ineffectiveness resulted from ERT's inability to deliver contractual oil and gas production in fourth quarter 2005 due primarily to the effects of Hurricanes *Katrina* and *Rita*. No hedge ineffectiveness was recorded during the three and nine months ended September 30, 2006.

As of September 30, 2006, we had oil forward sales contracts for the period from October 2006 through June 2007. The contracts cover an average of 35.3 MBbl per month at a weighted average price of \$70.63. In addition, we had natural gas forward sales contracts for the period from October 2006 through June 2007. The contracts cover an average of 567,083 MMBtu per month at a weighted average price of \$9.26. Hedge accounting does not apply to these contracts.

### *Interest Rate Hedge*

In September 2006, we entered into various cash flow hedging interest rate swaps to stabilize cash flows relating to a portion of our interest payment for our Term Loan beginning October 3, 2006. All of these interest rate swaps qualify for hedge accounting.

*Operating Activities.* The increase in cash flow from operating activities for the nine months ended September 30, 2006 as compared to the same period in 2005 was due primarily to an increase in profitability (\$88.2 million), which included higher depreciation and amortization of \$47.5 million and deferred taxes of \$14.6 million as compared to the same prior year period, and dry hole expenses of \$37.6 million during the nine months ended September 30, 2006. In addition, collections related to our trade receivables improved during the nine months ended September 30, 2006 as compared to the same period in prior year, excluding accounts receivable acquired in the Remington transaction. These increases to cash flow from operations were partially offset by decreases in accounts payable and accrued liabilities, excluding accounts payable and accrued liabilities assumed in the Remington transaction and a non-cash capital expenditure accrual of \$71.5 million. In addition, cash flow from operating activities was negatively impacted by the reclassification of our excess tax benefits related to the exercise of stock options and vesting of restricted shares from operating activities to financing activities in the first nine months of 2006 as a result of our adoption of the Statement of Financial Accounting Standards No. 123 (Revised 2004) *Share-Based Payment* ("SFAS No. 123R").

## Table of Contents

*Investing Activities.* Included in the capital acquisitions and expenditures during the first nine months of 2006 was \$825.1 million for Remington, offset by \$53.0 million of cash acquired. As part of the merger consideration, we issued 13,032,528 shares of our common stock to Remington stockholders as non-cash consideration. In addition, capital expenditures for the first nine months of 2006 included \$163.3 million for ERT well exploitation programs, further *Gunnison* field development and other deepwater development and exploratory costs, \$69.0 million related to our Contracting Services segment (including \$27.5 million for the purchase of the *Caesar*) and \$21.1 million related to our Shelf Contracting segment. Further, we completed the Acergy acquisition for the Shelf Contracting segment with the purchase of the *DLB 801* and the *Kestrel* for approximately \$78.2 million (inclusive of \$274,000 transaction costs paid in 2006). In the third quarter of 2006, we also completed the Fraser acquisition for cash of approximately \$24.8 million, offset by \$2.3 million of cash acquired. Included in the capital expenditures during the first nine months of 2005 was \$163.5 million for the Murphy properties acquisition by ERT, \$85.6 million for the acquisition of the Torch assets, \$49.6 million for ERT well exploitation programs and further *Gunnison* field development, \$10.9 million for Canyon Offshore ROV and trencher systems and approximately \$6.7 million for vessel upgrades on certain Contracting Services and Shelf Contracting vessels.

As of September 30, 2006, we have the following investments that are accounted for under the equity method of accounting:

- *Deepwater Gateway, L.L.C.* Our investment in Deepwater Gateway, L.L.C. totaled \$122.5 million as of September 30, 2006.
- *Independence.* Our investment in Independence was \$76.8 million as of September 30, 2006, and our total investment is expected to be approximately \$84 million. We expect to complete our investment by the end of 2006. Mechanical completion for Independence Hub is expected in the first quarter of 2007.
- *OTSL.* Our investment in OTSL totaled \$10.8 million at September 30, 2006. Further, in conjunction with our investment in OTSL, we entered into a one year, unsecured \$1.5 million working capital loan, initially bearing interest at 6% per annum, with OTSL. Interest is due quarterly beginning September 30, 2005 with a lump sum principal payment originally due to us on June 30, 2006. We have agreed to extend the lump sum principal payment due date and have increased the interest rate to three-month LIBOR plus 4.0%. We have reported a net loss of \$587,000 for the nine months ended September 30, 2006 related to our investment in OTSL. This net loss is an impairment indicator. However, we believe the current operating trend is temporary and have determined that the fair value of this investment, based on an estimate of its discounted cash flows, exceeds its carrying amount. As a result, there was no impairment at September 30, 2006.

We made the following contributions to our equity investments during the nine months ended September 30, 2006 and 2005 (in thousands):

	Nine Months Ended September 30,	
	2006	2005
Deepwater Gateway, L.L.C.(1)	\$ —	\$ 72,000
Independence Hub, LLC	23,092	28,486
OTSL(2)	—	8,400
Total	<u>\$ 23,092</u>	<u>\$ 108,886</u>

(1) Contribution made in the nine months ended September 30, 2005 related to Deepwater Gateway, L.L.C. was for the repayment of our portion of the term loan for Deepwater Gateway, L.L.C. Upon repayment of the loan, our \$7.5 million restricted cash in 2005 was released from escrow and the escrow agreement was terminated.

(2) Includes non-cash contribution of the *Witch Queen* in 2005 of \$6.7 million (net of \$296,000 of transaction costs).

## [Table of Contents](#)

We received the following distributions from our equity investments during the nine months ended September 30, 2006 and 2005 (in thousands):

	Nine Months Ended September 30,	
	2006	2005
Deepwater Gateway, L.L.C	\$ 7,750	\$ 16,100
Independence Hub, LLC	—	—
OTSL	68	—
Total	<u>\$ 7,818</u>	<u>\$ 16,100</u>

### *Oil and Gas*

As of September 30, 2006, we had \$33.4 million of restricted cash, included in other assets, net, in the accompanying condensed consolidated balance sheet, all of which related to ERT's escrow funds for decommissioning liabilities associated with the SMI 130 acquisition in 2002. Under the purchase agreement for the acquisition, ERT was obligated to escrow 50% of production up to the first \$20 million and 37.5% of production on the remaining balance up to \$33 million in total escrow. ERT has fully escrowed the requirement as of September 30, 2006. ERT may use the restricted cash for decommissioning the related field.

On July 1, 2006, we acquired 100% of Remington for approximately \$1.4 billion in cash and stock. The merger consideration was 0.436 of a share of our common stock and \$27.00 in cash for each share of Remington common stock. On July 1, 2006, we issued 13,032,528 shares of our common stock to Remington stockholders and funded the cash portion of the Remington acquisition (approximately \$806.8 million) and transaction costs (approximately \$18.3 million) through the Term Loan.

ERT agreed to participate in the drilling of an exploratory well (Tulane prospect) that was drilled in the first quarter of 2006. This prospect targeted reserves in deeper sands, within the same trapping fault system, of a currently producing well. In March 2006, mechanical difficulties were experienced in the drilling of this well, and after further review, the well was plugged and abandoned. The total estimated cost to us of approximately \$21.7 million was charged to earnings during the nine months ended September 30, 2006. We continue to evaluate various options with the operator for recovering the potential reserves. Further, in the third quarter of 2006, we expensed approximately \$15.9 million of exploratory drilling cost related to two deep shelf properties (acquired in the Remington acquisition which were in process prior to July 1, 2006) in which we determined commercial quantities of hydrocarbons were not discovered.

In March 2005, ERT acquired a 30% working interest in a proven undeveloped field in Atwater Block 63 (Telemark) of the Deepwater Gulf of Mexico for cash and assumption of certain decommissioning liabilities. In December 2005, ERT was advised by Norsk Hydro that Norsk Hydro would not pursue its development plan for the deepwater discovery. As a result, ERT acquired a 100% working interest and operatorship in April 2006 following a non-consent to the ERT plan of development by Norsk Hydro. ERT's interest in this property and surrounding fields were sold in July 2006 for \$15 million in cash and with ERT also retaining a reservation of an overriding royalty interest in the Telemark development. We recorded a gain of \$2.2 million in the third quarter of 2006 related to this sale. The sale of this asset constituted a disposition under the Credit Agreement, which requires either prepayment of the Term Loan by the amount of the sale or escrow of the proceeds until the amount can be invested in qualified replacement collateral. We elected to transfer the \$15 million cash received into an escrow account held by Bank of America for use in the purchase of or investment in qualified replacement assets. The funds held in escrow will be released upon submission of qualified capital expenditures to Bank of America. We expect to receive the funds from the escrow in the fourth quarter of 2006. The restricted cash is reported in other assets, net as of September 30, 2006.

## [Table of Contents](#)

The Tiger Prospect, located at a water depth of 1,850 feet, initiated sidetrack drilling operations in May 2006. The successful well has been tied back to a host platform and production is expected to begin in the fourth quarter of 2006.

In August 2006, ERT acquired a 100% working interest in the Typhoon oil field (Green Canyon Blocks 236/237), the Boris oil field (Green Canyon Block 282) and the Little Burn oil field (Green Canyon Block 238) for assumption of certain decommissioning liabilities. We have received SOP approval from the MMS. ERT will also have farm-in rights on five near-by blocks where three prospects have been identified in the Typhoon mini-basin. Following the acquisition of the Typhoon field and MMS approval, we renamed the field Phoenix. We expect to deploy a minimal floating production system over Phoenix in mid-2008, with production scheduled to commence in the third quarter of 2008. Specific field drilling, completion and infrastructure cost is expected to be approximately \$135 million (exclusive of the cost of the FPS). See Note 22 for further detail on the floating production system.

As of September 30, 2006, we committed to an additional estimated \$159.0 million for development and drilling costs related to our oil and gas properties.

In June 2005, ERT acquired a mature property package on the Gulf of Mexico shelf from Murphy Exploration & Production Company — USA ("Murphy"), a wholly owned subsidiary of Murphy Oil Corporation. The acquisition cost to ERT included both cash (\$163.5 million) and the assumption of the abandonment liability from Murphy of approximately \$32.0 million (a non-cash investing activity).

### *Shelf Contracting*

In April 2005, we agreed to acquire the diving and shallow water pipelay assets of Acergy that currently operate in the waters of the Gulf of Mexico (GOM) and Trinidad. On November 1, 2005, we closed the transaction to purchase the diving assets of Acergy that operate in the Gulf of Mexico. In addition, separate agreements to purchase the *DLB 801* and *Kestrel* were closed in the first quarter of 2006 when these assets completed their work campaigns in Trinidadian waters. The *DLB 801* was purchased in January 2006 for approximately \$38.0 million. We subsequently sold a 50% interest in this vessel in January 2006 for approximately \$19.0 million. We received \$6.5 million in cash in 2005 and a \$12.5 million interest-bearing promissory note in 2006. The balance of the promissory note as of September 30, 2006 was \$1.5 million. We expect to collect the remaining balance. Subsequent to the sale of the 50% interest, we entered into a 10-year charter lease agreement with the purchaser, in which the lessee has an option to purchase the remaining 50% interest in the vessel beginning in January 2009. This lease was accounted for as an operating lease. Included in our lease accounting analysis was an assessment of the likelihood of the lessee performing under the full term of the lease. The carrying amount of the *DLB 801* at September 30, 2006, was approximately \$17.8 million. In addition, under the lease agreement, if the lessee exercises the purchase option, the lessee is able to credit \$2.35 million of its lease payments per year against the remaining 50% interest in the *DLB 801* not already owned. If the lessee elects not to exercise its option to purchase the remaining 50% interest in the vessel, minimum future rentals to be received on this lease are \$68.0 million through January 2016.

Also, in a bankruptcy auction held in June 2005, we were the high bidder for seven vessels, including the *Express*, and a portable saturation system for approximately \$85.6 million, including certain costs incurred related to the transaction.

## [Table of Contents](#)

### *Contracting Services*

In January 2006, one of our subsidiaries, Vulcan Marine Technology LLC, purchased the *Caesar* for the Contracting Services segment for approximately \$27.5 million in cash. It is currently under charter to a third party. After completion of the charter (anticipated to end by the end of 2006), we plan to convert the vessel into a deepwater pipelay asset. Total conversion costs are estimated to be approximately \$90 million, of which approximately \$5.1 million had been incurred and \$19.1 million had been committed at September 30, 2006. We have entered into an agreement with the third party currently leasing the vessel, whereby, it has an option to purchase up to 49% of Vulcan for consideration totaling the proportionate share of the cost of the vessel plus the actual cost of conversion (conversion cost is estimated to be \$90 million). The third party must make all contributions to Vulcan on or before March 31, 2007.

We will also upgrade the *Q4000* to include drilling via the addition of a modular-based drilling system for approximately \$40 million, of which approximately \$7.8 million had been incurred and approximately \$24.5 million had been committed at September 30, 2006.

*Financing Activities.* We have financed seasonal operating requirements and capital expenditures with internally generated funds, borrowings under credit facilities, sale of equity and project financings.

### *Senior Credit Facilities*

On July 3, 2006, we entered into the Credit Agreement with Bank of America, N.A., pursuant to which we borrowed \$835 million in the Term Loan and may borrow Revolving Loans under a Revolving Credit Facility up to an outstanding amount of \$300 million. In addition, the Revolving Credit Facility may be used for issuances of letters of credit up to an outstanding amount of \$50 million. Proceeds from the credit facilities were used to fund the cash portion of the Remington acquisition and for general corporate purposes. The Term Loan matures on July 1, 2013 and is subject to scheduled principal payments of \$2.1 million quarterly. We made our first payment on October 2, 2006. The Revolving Loans mature on July 1, 2011.

### *Convertible Senior Notes*

On March 30, 2005, we issued \$300 million of 3.25% Convertible Senior Notes due 2025 at 100% of the principal amount to certain qualified institutional buyers. Proceeds from the offering were used for general corporate purposes including a capital contribution of \$72 million (made in March 2005) to Deepwater Gateway, L.L.C. to enable it to repay its term loan, \$163.5 million related to the ERT acquisition of the Murphy properties in June 2005 and approximately \$85.6 million to partially fund the Torch vessels acquired in August 2005.

### *MARAD Debt*

The MARAD debt is payable in equal semi-annual installments which began in August 2002 and matures 25 years from such date. We made two payments during each of the nine month periods ended September 30, 2006 and 2005 totaling \$3.6 million and \$4.3 million, respectively. The MARAD Debt is collateralized by the *Q4000*, with us guaranteeing 50% of the debt, and initially bore interest at a floating rate which approximated AAA Commercial Paper yields plus 20 basis points. As provided for in the MARAD Debt agreements in September 2005, we fixed the interest rate on the debt through the issuance of a 4.93% fixed-rate note with the same maturity date (February 2027). In accordance with the MARAD Debt agreements, we are required to comply with certain covenants and restrictions, including the maintenance of minimum net worth, working capital and debt-to-equity requirements. As of September 30, 2006, we were in compliance with these covenants.

## [Table of Contents](#)

In September 2005, we entered into an interest rate swap agreement with a bank. The swap was designated as a cash flow hedge of a forecasted transaction in anticipation of the refinancing of the MARAD Debt from floating rate debt to fixed-rate debt that closed on September 30, 2005. The interest rate swap agreement totaled an aggregate notional amount of \$134.9 million with a fixed interest rate of 4.695%. On September 30, 2005, we terminated the interest rate swap and received cash proceeds of approximately \$1.5 million representing a gain on the interest rate differential. This gain was deferred and is being amortized over the remaining life of the MARAD Debt as an adjustment to interest expense.

### *Other*

Related to our \$55 million cumulative convertible preferred stock, we paid \$2.7 million and \$1.7 million in dividends for the nine months ended September 30, 2006 and 2005, respectively. The holder may redeem the value of its original and additional investment in the preferred shares to be settled in common stock at the then prevailing market price or cash at our discretion. In the event we are unable to deliver registered common shares, we could be required to redeem in cash.

In addition, in connection with the acquisition of Helix Energy Limited, we entered into a two-year note payable to former owners totaling approximately 3.1 million British Pounds, or approximately \$5.6 million, on November 3, 2005 (\$5.9 million at September 30, 2006). The notes bear interest at a LIBOR based floating rate with payments due quarterly beginning on January 31, 2006. Principal amounts are due in November 2007.

In connection with borrowings under credit facilities and long-term debt financings, we have paid deferred financing costs totaling \$11.1 million and \$11.0 million in the nine months ended September 30, 2006 and 2005, respectively.

During the nine months ended September 30, 2006 and 2005, we made payments of \$2.2 million and \$2.1 million, respectively, on capital leases relating to Canyon. The only other financing activity during the nine months ended September 30, 2006 and 2005 involved exercises of employee stock options of \$8.8 million and \$7.2 million, respectively. In addition, in the first nine months of 2006, financing activities included \$7.8 million of excess tax benefits related to exercise of options and vesting of restricted shares. Excess tax benefits related to the exercise of stock options were included in cash flow from operating activities prior to January 1, 2006.

In addition, a subsidiary of CDI intends to enter into a credit agreement with Bank of America, N.A., as administrative agent, J.P. Morgan Securities Inc. and Banc of America Securities LLC, as joint lead arrangers, and other financial institutions as lenders and ancillary agents identified therein, pursuant to which the borrower may have outstanding at any one time up to \$250 million in revolving loans under a five-year revolving credit facility. Within that borrowing limit, the borrower may request letters of credit at any one time outstanding up to \$10 million.

## Table of Contents

The following table summarizes our contractual cash obligations as of September 30, 2006 and the scheduled years in which the obligations are contractually due (in thousands):

	Total (1)	Less Than 1 year	1-3 Years	3-5 Years	More Than 5 Years
Convertible Senior Notes(2)	\$ 300,000	\$ —	\$ —	\$ —	\$ 300,000
Term Loan	835,000	8,400	16,800	16,800	793,000
MARAD debt	131,287	3,823	8,228	9,069	110,167
Loan notes	5,871	—	5,871	—	—
Capital leases	4,667	2,504	2,163	—	—
Investments in Independence Hub, LLC	11,800	11,800	—	—	—
Drilling and development costs	159,000	136,300	22,700	—	—
Property and equipment(3)	43,600	43,600	—	—	—
Operating leases(4)	49,827	30,883	7,732	4,741	6,471
Other(5)	8,190	4,400	3,790	—	—
Total cash obligations	<u>\$1,549,242</u>	<u>\$ 241,710</u>	<u>\$ 67,284</u>	<u>\$ 30,610</u>	<u>\$1,209,638</u>

(1) Excludes guarantee of performance related to the construction of the Independence Hub platform under Independence Hub, LLC (estimated to be immaterial at September 30, 2006) and unsecured letters of credit outstanding at September 30, 2006 totaling \$7.8 million. These letters of credit primarily guarantee various contract bidding, insurance activities and shipyard commitments.

(2) Maturity 2025. Can be converted prior to stated maturity if closing sale price of Helix's common stock for at least 20 days in the period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter exceeds 120% of the closing price on that 30th trading day (i.e. \$38.56 per share).

(3) At December 31, 2005, we had committed to purchase a certain Contracting Services vessel (*Caesar*) to be converted into a deepwater pipelay vessel. The vessel was purchased in January 2006 for \$27.5 million and conversion costs are estimated to be approximately \$90 million, of which approximately \$5.1 million had been incurred and approximately \$19.1 million was committed at September 30, 2006. Further, we will upgrade the *Q4000* to include drilling via the addition of a modular-based drilling system for approximately \$40 million, of which approximately \$7.8 million had been incurred and approximately \$24.5 million had been committed at September 30, 2006.

(4) Operating leases included facility leases and vessel charter leases. Vessel charter lease commitments at September 30, 2006 were approximately \$12.1 million.

(5) Other consisted of scheduled payments pursuant to a 3-D seismic license agreement.

Finally, in connection with our business strategy, we regularly evaluate acquisition opportunities (including additional vessels as well as interests in offshore natural gas and oil properties). We believe internally generated cash flow, borrowings under existing credit facilities and use of project financing along with other debt and equity alternatives will provide the necessary capital to meet these obligations and achieve our planned growth. However, there can be no assurance that sufficient financing will be available for all future capital expenditures.

## Contingencies

In December 2005 and at subsequent dates, ERT received notice from the MMS that the price threshold was exceeded for 2004 oil and gas production and for 2003 gas production, and that royalties are due on such production notwithstanding the provisions of the DWRRA. As of September 30, 2006, we have approximately \$37.1 million accrued for the related royalties and interest. See Note 18 for a detailed discussion of this contingency.

## [Table of Contents](#)

### *Subsequent Events*

Subsequent to September 30, 2006, we acquired a 58% interest in Seatrac for total consideration of approximately \$12.5 million, including approximately \$9.1 million paid to existing shareholders, and \$3.4 million for subscription of new Seatrac shares. Under the terms of the purchase agreement, we will be obligated to purchase the remaining 42% of the shares outstanding from the existing shareholders for \$9.1 million upon Seatrac's successfully obtaining a significant commercial contract. In the event that the conditions required for the additional purchase are not met, we will be under no obligation to purchase the remaining 42% of Seatrac. In addition, the agreement with the existing shareholders provides for an earnout period of five years from the closing date for the purchase of the remaining 42% of Seatrac. If during this five-year period, Seatrac achieves certain financial performance objectives, the shareholders will be entitled to additional consideration of approximately \$4.6 million.

Further, in October 2006, we, along with Kommandor RØMØ A/S ("Kommandor RØMØ"), a Danish corporation, formed Kommandor, LLC ("Kommandor"), a Delaware limited liability company, to convert a ferry into a dynamically-positioned construction service vessel. Upon completion of the initial conversion, this vessel will be leased under a bareboat charter to ERT for further conversion and subsequent use as a floating production unit in the Deepwater Gulf of Mexico, initially for the Phoenix field. Our initial investment in Kommandor was \$15 million in cash. Further, we have agreed to provide a loan facility of up to \$40 million and Kommandor RØMØ has agreed to loan \$5 million to the newly formed entity for purposes of completing the initial conversion. Kommandor has received a commitment letter from a financial institution for term financing of \$45 million of the initial conversion upon delivery of the vessel under the bareboat charter. Proceeds from this financing will be used to repay amounts loaned to the entity by us and Kommandor RØMØ. Conversion of the vessel is expected to be completed in two phases. The first phase is expected to be completed by the end of 2007. The second phase of the conversion is expected to be completed by mid 2008. Estimated cost of conversion for the second phase is approximately \$100 million, in which we expect to participate 100%.

### **Item 3. Quantitative and Qualitative Disclosure about Market Risk**

We are currently exposed to market risk in three major areas: interest rates, commodity prices and foreign currency exchange rates.

#### *Interest Rate Risk*

As of September 30, 2006, approximately 66% of our outstanding debt was based on floating rates. As a result, we are subject to interest rate risks. In September 2006, we entered into various cash flow hedging interest rate swaps to stabilize cash flows relating to \$200 million of our interest payment for our Term Loan beginning October 3, 2006. Excluding the portion of our debt for which we have interest rate swaps in place, the interest rate applicable to our remaining variable rate debt may rise, increasing our interest expense. The impact of market risk is estimated using a hypothetical increase in interest rates by 100 basis points for our variable rate long-term debt that is not hedged. Based on this hypothetical assumption, we would have incurred an additional \$2.1 million in interest expense for both three and nine months ended September 30, 2006. Interest rate risk was immaterial in 2005 as none of our outstanding debt at September 30, 2005 was based on floating rates.

#### *Commodity Price Risk*

We have utilized derivative financial instruments with respect to a portion of 2006 and 2005 oil and gas production to achieve a more predictable cash flow by reducing our exposure to price fluctuations. We do not enter into derivative or other financial instruments for trading purposes.

[Table of Contents](#)

As of September 30, 2006, we have the following volumes under derivative contracts related to our oil and gas producing activities:

<u>Production Period</u>	<u>Instrument Type</u>	<u>Average Monthly Volumes</u>	<u>Weighted Average Price</u>
<b>Crude Oil:</b>			
October 2006 – December 2006	Collar	125 MBbl	\$44.00 - \$70.48
January 2007 – December 2007	Collar	50 MBbl	\$40.00 - \$62.15
<b>Natural Gas:</b>			
October 2006 – December 2006	Collar	600,000 MMBtu	\$ 7.25 - \$13.40
January 2007 – June 2007	Collar	550,000 MMBtu	\$ 8.00 - \$13.69
July 2007 – December 2007	Collar	333,333 MMBtu	\$ 7.50 - \$11.23

We have not entered into any hedge instruments subsequent to September 30, 2006. Changes in NYMEX oil and gas strip prices would, assuming all other things being equal, cause the fair value of these instruments to increase or decrease inversely to the change in NYMEX prices.

As of September 30, 2006, we had oil forward sales contracts for the period from October 2006 through June 2007. The contracts cover an average of 35.3 MBbl per month at a weighted average price of \$70.63. In addition, we had natural gas forward sales contracts for the period from October 2006 through June 2007. The contracts cover an average of 567,083 MMBtu per month at a weighted average price of \$9.26. Hedge accounting does not apply to these contracts.

#### *Foreign Currency Exchange Rates*

Because we operate in various oil and gas exploration and production regions in the world, we conduct a portion of our business in currencies other than the U.S. dollar (primarily with respect to Well Ops (U.K.) Limited and Helix Energy Limited). The functional currency for Well Ops (U.K.) Limited and Helix Energy Limited is the applicable local currency (British Pound). Although the revenues are denominated in the local currency, the effects of foreign currency fluctuations are partly mitigated because local expenses of such foreign operations also generally are denominated in the same currency. The impact of exchange rate fluctuations during each of the three and nine months ended September 30, 2006 and 2005, respectively, were not material to our results of operations or cash flows.

Assets and liabilities of Wells Ops (U.K.) Limited and Helix Energy Limited are translated using the exchange rates in effect at the balance sheet date, resulting in translation adjustments that are reflected in accumulated other comprehensive income in the shareholders' equity section of our balance sheet. Approximately 7% of our assets are impacted by changes in foreign currencies in relation to the U.S. dollar at September 30, 2006. We recorded unrealized gains of \$1.3 million and \$10.3 million to our equity account for the three and nine months ended September 30, 2006, respectively, and \$1.3 million and \$8.0 million of unrealized losses to our equity account for the three and nine months ended September 30, 2005, respectively. Deferred taxes have not been provided on foreign currency translation adjustments since we consider our undistributed earnings (when applicable) of our non-U.S. subsidiaries to be permanently reinvested.

Canyon Offshore, our ROV subsidiary, has operations in the United Kingdom and Southeast Asia sectors. Canyon conducts the majority of its operations in these regions in U.S. dollars which it considers the functional currency. When currencies other than the U.S. dollar are to be paid or received, the resulting transaction gain or loss is recognized in the statements of operations. These amounts for the three and nine months ended September 30, 2006 and 2005, respectively, were not material to our results of operations or cash flows.

[Table of Contents](#)

In addition, FDI has operations in the Southeast Asia sector and conducts the majority of its operations in this region in U.S. dollars, which it considers the functional currency. When currencies other than the U.S. dollar are to be paid or received, the resulting transaction gain or loss is recognized in the statements of operations. These amounts for the three months ended September 30, 2006 were not material to our results of operations or cash flows.

**Item 4. Controls and Procedures**

(a) *Evaluation of disclosure controls and procedures.* Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the fiscal quarter ended September 30, 2006. Based on this evaluation, the principal executive officer and the principal financial officer have concluded that our disclosure controls and procedures were effective as of the end of the fiscal quarter ended September 30, 2006 to ensure that information that is required to be disclosed by us in the reports we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management, as appropriate, to allow timely decisions regarding required disclosure.

(b) *Changes in internal control over financial reporting.* There have been no changes in our internal control over financial reporting, as defined in Rule 13a-15(f) of the Securities Exchange Act, in the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. On July 1, 2006, we completed the acquisition of Remington Oil and Gas Corporation. We continue to integrate Remington's historical internal controls over financial reporting into our own internal controls over financial reporting. This integration may lead to our making changes in our or Remington's historical internal controls over financial reporting in future fiscal periods.

## Part II. OTHER INFORMATION

### Item 1. Legal Proceedings

See Part I, Item 1, Note 18 to the Condensed Consolidated Financial Statements, which is incorporated herein by reference.

### Item 1A. Risk Factors

In addition to the risk factors disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2005 and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2006, we add the following risk factors as a result of recent events:

#### **Natural gas and oil prices are volatile, which makes future revenue uncertain.**

Our financial condition and results of operations depend on the prices we receive for the oil and gas we produce. The market prices for oil and gas are subject to fluctuation in response to events beyond our control, such as:

- supply of and demand for oil and gas;
- market uncertainty;
- worldwide political and economic instability; and
- government regulations.

Oil and gas prices have historically been volatile, and such volatility is likely to continue. Our ability to estimate the value of producing properties for acquisition and to budget and project the financial return of exploration and development projects is made more difficult by this volatility. In addition, to the extent we do not forward sell in order to hedge our exposure to price volatility, a dramatic decline in such prices could have a substantial and material effect on:

- our revenues;
- financial condition;
- results of operations;
- our ability to increase production and grow reserves in an economically efficient manner; and
- our access to capital.

#### **Our commodity price risk management related to some of our oil and gas production may reduce our potential gains from increases in oil and gas prices.**

Oil and gas prices can fluctuate significantly and have a direct impact on our revenues. To manage our exposure to the risks inherent in such a volatile market, from time to time, we have forward sold for future physical delivery a portion of our future production. This means that a portion of our production is sold at a fixed price as a shield against dramatic price declines that could occur in the market. In addition, we have entered into costless collar contracts related to some of our future oil and gas production as well. We may from time to time engage in other hedging activities that limit our upside potential from price increases. These sales activities may limit our benefit from dramatic price increase.

**We are in part dependent on third parties with respect to the transportation of our oil and gas production and in certain cases, third party operators who influence our productivity.**

Notwithstanding our ability to produce, we are dependent on third party transporters to bring our oil and gas production to the market. In the event a third party transporter experiences operational difficulties, due to force majeure, pipeline shut-ins, or otherwise, this can directly influence our ability to sell commodities that we are able to produce. In addition, with respect to oil and gas projects that we do not operate, we have limited influence over operations, including limited control over the maintenance of both safety and environmental standards. The operators of those properties may, depending on the terms of the applicable joint operating agreement:

- refuse to initiate exploration or development projects;
- initiate exploration or development projects on a slower or faster schedule than we prefer;
- due to their own liquidity and cash flow problems, delay the pace of drilling or development; and/or
- drill more wells or build more facilities on a project than we can afford, whether on a cash basis or through financing, which may limit our participation in those projects or limit the percentage of our revenues from those projects.

The occurrence of any of the foregoing events could have a material adverse effect on our anticipated exploration and development activities

**Government regulation may affect our ability to conduct operations, and the nature of our business exposes us to environmental liability.**

Numerous federal and state regulations affect our oil and gas operations. Current regulations are constantly reviewed by the various agencies at the same time that new regulations are being considered and implemented. In addition, because we hold federal leases, the federal government requires us to comply with numerous additional regulations that focus on government contractors. The regulatory burden upon the oil and gas industry increases the cost of doing business and consequently affects our profitability.

Our operations are subject to a variety of national (including federal, state and local) and international laws and regulations governing the discharge of materials into the environment or otherwise relating to environmental protection. Numerous governmental departments issue rules and regulations to implement and enforce such laws that are often complex and costly to comply with and that carry substantial administrative, civil and possibly criminal penalties for failure to comply. Under these laws and regulations, we may be liable for remediation or removal costs, damages and other costs associated with releases of hazardous materials including oil into the environment, and such liability may be imposed on us even if the acts that resulted in the releases were in compliance with all applicable laws at the time such acts were performed.

We operate in foreign jurisdictions that have various types of governmental laws and regulations relating to the discharge of oil or hazardous substances and the protection of the environment. Pursuant to these laws and regulations, we could be held liable for remediation of some types of pollution, including the release of oil, hazardous substances and debris from production, refining or industrial facilities, as well as other assets we own or operate or which are owned or operated by either our customers or our sub-contractors.

[Table of Contents](#)

Management believes that we are in compliance in all material respects with all applicable environmental laws and regulations to which we are subject. We do not anticipate that compliance with existing environmental laws and regulations will have a material effect upon our capital expenditures, earnings or competitive position. However, changes in the environmental laws and regulations, or claims for damages to persons, property, natural resources or the environment, could result in substantial costs and liabilities, and thus there can be no assurance that we will not incur significant environmental compliance costs in the future. Such environmental liability could substantially reduce our net income and could have a significant impact on our financial ability to carry out our oil and gas operations.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

**Issuer Purchases of Equity Securities**

Period	(a) Total number of shares purchased	(b) Average price paid per share	(c) Total number of shares purchased as part of publicly announced program	(d) Maximum value of shares that may yet be purchased under the program(2)
July 1 to July 31, 2006	—	\$ —	—	\$ N/A
August 1 to August 31, 2006	—	—	—	N/A
September 1 to September 30, 2006(1)	1,065	38.46	—	N/A
	<u>1,065</u>	<u>\$ 38.46</u>	<u>—</u>	<u>\$ N/A</u>

(1) 1,065 shares subject to restricted share awards were withheld to satisfy tax obligations arising upon the vesting of restricted shares.

(2) In October 2006, we purchased approximately 1.1 million shares of our common stock for a weighted average price of \$29.22 per share, or \$31.4 million, under our stock buy back program which was approved by our board of directors in June 2006 for up to \$50 million.

**TERMINATION AGREEMENT**

This Termination Agreement (the "Agreement") dated the 31<sup>st</sup> day of August, 2006, is made by and between **Helix Energy Solutions Group, Inc.**, together with all of its subsidiary and affiliated companies (collectively, "Company") and **James Lewis Connor, III** ("Employee"). The foregoing are sometimes herein referred to individually as a "Party" and collectively as the "Parties".

Reference is made to that certain Amended and Restated Employment Agreement dated May 1, 2002, made by and between Employee and Company, as amended by that certain First Amendment to Amended and Restated Employment Agreement made effective as of the 1st day of January, 2004 (as amended, the "Employment Agreement").

For a good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged and confessed, the Parties agree as follows:

1. Effective Date. Employee hereby resigns employment with Company and any offices held with the Company, effective August 31, 2006 (the "Effective Date") and said Employment Agreement is terminated of even date therewith, subject to the terms and conditions of this Agreement.

2. Special Payment. In exchange for termination of the Employment Agreement and Employee making himself reasonably available to the Company to advise on transitional matters (as determined by the President of the Company for a period not to exceed six (6) months hereof), and contemporaneous with execution and delivery of this Agreement by Employee to Company, Company shall pay to Employee a special payment ("Special Payment") in the amount of \$685,650, subject to withholding and FICA taxes.

3. Indemnification of Company by Employee. Employee hereby agrees to RELEASE, INDEMNIFY and HOLD HARMLESS Company, its subsidiary and affiliated companies, its and their joint owners, co-lessees, partners, joint venturers, and the officers, directors, agents, consultants, insurers and employees of all of the foregoing (individually and collectively referred to as the "Released Parties"), from any and all claims, demands and causes of action arising out of or related to (i) Employee's employment with Company (including any incentive or bonus plan or unvested options, but expressly excluding any vested interest in any options, employee stock purchase plans, pension plans, insurance benefits as provided in Paragraph 8, and/or accrued vacation); (ii) any claim whatsoever arising out of or related to that certain September 2000 "B Participation Agreement" between OKCD Holdings, Inc., OKCD Investments, Ltd. and Employee; (iii) the termination of Employee's employment with Company; or (iv) any act or omission occurring prior to the execution of this Agreement, including, but not limited to, any claims that Employee may have arising under any federal, state or local laws, statutes, ordinances, or regulations pertaining to discrimination on the basis of sex, race, color, religion, creed, national origin, age or disability status, including workers' compensation and any claim for overtime or back pay, and any other cause of action sounding in tort, quasi-tort discrimination, particularly, but not limited to, any rights Employee may have pursuant to the Age Discrimination in Employment Act, the Older Workers Benefit Protection

---

Act, Title VII of the Civil Rights Act of 1964, the Fair Labor Standards Act, the Civil Rights Act of 1991, the Civil Rights Act of 1866, the Worker Adjustment and Retraining Notification Act, the Rehabilitation Act of 1973, the Americans with Disabilities Act, Employee Retirement Income Security Act of 1974, all oral or written contract rights, all common and civil law rights such as tort or personal injury of any sort, and any and all claims, relating to Employee's employment with Company or the termination of Employee's employment with Company. Employee also understands that, except as specifically otherwise provided in this Agreement, Employee is waiving all rights to any claim for employee benefits, including retirement benefits; provided, however, that this Agreement shall not affect Employee's vested rights under the Company's 401(k) plan. It is the express intent of Employee to waive and release any and all of the foregoing claims, demands and causes of action, whether herein enumerated or not, arising out of or related to Employee's employment with Company or termination therefrom, whether such claims, demands, and causes of action are known or unknown, suspected or unsuspected.

4. Indemnification of Employee by Company. Company hereby agrees to RELEASE, DEFEND, INDEMNIFY and HOLD HARMLESS Employee from (i) any act or omission of Employee prior to the effective date of Employee's resignation; and (ii) any and all claims, demands and causes of action arising out of or related to Employee's employment with Company and/or service as an officer of Company (including any of its subsidiary and affiliated companies); whether such acts, omissions, claims, demands, and causes of action are known or unknown, suspected or unsuspected.

5. Payment of Expenses and Accrued Vacation Time. By no later than the 15<sup>th</sup> day of September, 2006, Company shall: (i) reimburse Employee his reasonable business expenses incurred prior to the Effective Date consistent with Company policy in effect at the time thereof; and (ii) pay Employee for all accrued, but unused, vacation time, including the thirty days carried forward from prior periods.

6. Covenants of Employee. It is understood and agreed that Section 4 (Confidential Information); Section 5(b) (Non-Solicitation); and Section 6 (Intellectual Property) shall survive termination of the Employment Agreement as therein provided, but that portions of Section 5 dealing with Non-Competition are hereby waived by Company.

7. Non-Disparagement. Employee and Company each agree not to disparage the other.

8. Insurance Benefits. It is agreed that Employee and Employee's eligible dependents shall be entitled to continue to participate in Company's group medical and life insurance plans at Employee's sole cost and expense until the earliest of: (i) in the case of medical insurance coverage, Employee receives coverage under another group medical plan; (ii) in the case of medical insurance coverage, the employee is entitled to Medicare; (iii) in the case of both medical insurance and life insurance coverage, the Employee turns 65 years of age; and (iv) in the case of medical insurance coverage, December 31, 2008, if under final rules and regulations issued by the Department of Treasury and the Internal Revenue Service under section 409A of the Internal Revenue Code of 1986, as amended the medical insurance coverage would constitute deferred compensation for purposes of section 409A.

9. Covenant Not to Sue. Employee agrees that Employee will never sue the Released Parties for any and all claims, demands and causes of action released in Paragraph 3, above. Likewise, Company agrees that it will never sue Employee for any and all claims, demands and causes of action released in Paragraph 4, above.

10. No Reliance by Employee. Employee expressly acknowledges and agrees that in connection with Employee's decision to accept the Special Payment and execute this Agreement, Employee has not relied on any statement, representation, promise or agreement of any kind by any member of the Released Parties, their agents, attorneys, or representatives, with regard to the subject matter, basis, or effect of this Agreement or otherwise, other than those specifically stated in this Agreement. This Agreement sets forth the entire agreement between the Parties and fully supersedes any and all prior agreements or understandings, written or oral, between the Parties pertaining to the subject matter of this Agreement.

11. Miscellaneous. In connection with this Agreement:

- (a) Employee acknowledges and agrees that Employee has been given a full and fair opportunity to review this Agreement;
- (b) Employee understands that Employee has been given at least twenty-one (21) days to consider whether to accept the Special Payment in returning for providing the releases herein described in favor of the Released Parties; provided, however, that if Employee has made the decision to sign this Agreement before the expiration of the twenty-one (21) day period, Employee certifies that the decision to execute this Agreement prior to the expiration of said twenty-one (21) day period was voluntary and was not induced by Company or the other Released Parties through fraud, duress, coercion, misrepresentation, a threat to alter or withdraw the offer prior to the expiration of said twenty-one (21) day period, or by providing different terms to other employees who sign the Agreement prior to the expiration of said time period;
- (c) Employee has carefully read and fully understands all of the provisions of this Agreement, and Employee has executed this Agreement knowing that Employee has given a release to the Released Parties that will prevent Employee from suing Company and/or the Released Parties for any claim, demand or cause of action released pursuant to this Agreement;
- (d) Employee understands that this Agreement applies to any claim that Employee has against Company, including, but not limited to, claims for damages arising under the Age Discrimination in Employment Act (29 U.S.C. §§ 621-634);
- (e) Company has specifically advised Employee to consult with an attorney of Employee's choice before executing this Agreement;

- (f) Employee understands that nothing in this Agreement shall be construed to prohibit Employee from filing a charge or complaint, including a challenge to the validity of this Agreement, with the Equal Employment Opportunity Commission (“EEOC”) or participating in any investigation or proceeding by the EEOC;
- (g) Employee represents and warrants that: (i) Employee has read this Agreement and acknowledges that it is written in a manner that Employee can understand; (ii) Employee understands that Employee is giving a full and final release to the Released Parties and further declares that it is Employee’s intent to provide such a release; (iii) this is a full and final expression of Employee’s agreement with Company and the Released Parties; (iv) no other promises have been made to Employee by either Company or the other Released Parties, except as otherwise set forth in this Agreement; and (v) Employee executes this Agreement voluntarily and freely.

12. Company Property. Except as herein expressly provided, Company acknowledges that Employee has returned to Company all Company property and confidential information. It is understood and agreed that Employee has been permitted to retain his electronic files to assist him in providing transitional advice and for the purpose of maintaining forms, but that any confidential information contained therein shall be maintained as confidential in accordance with Section 4 of the Employment Agreement.

13. Invalidity. If any provision herein is held to be partially or completely contrary to law and/or unenforceable, the Agreement shall be deemed to be amended to partially or completely modify such provision or portion thereof to the extent necessary to make it enforceable, or if necessary, the Agreement shall be deemed to be amended to delete the unenforceable provision or portion thereof. In the event any provision is deleted, the remaining provisions shall remain in full force and effect.

14. No Admission of Wrongdoing. Nothing in this Agreement shall be construed as an admission of any wrongdoing by any Party or Released Party.

15. Applicable Law. This Agreement shall be construed and applied in accordance with applicable provisions of the Employee Retirement Income Security Act (ERISA) and the Older Workers Benefit Protection Act (OWBPA). To the extent that federal law does not apply, this Agreement shall be deemed to have been executed and delivered within the State of Texas, without regard for that state’s rules regarding conflicts of laws.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK

AGREED and ACCEPTED as of the Effective Date.

EMPLOYEE:

/s/ JAMES LEWIS CONNOR, III

Name: James Lewis Connor, III  
Address: 50 Highland Circle  
The Woodlands, Texas 77381

COMPANY:

**Helix Energy Solutions Group, Inc.**

/s/ MARTIN R. FERRON

Name: Martin R. Ferron  
Title: President

**EMPLOYMENT AGREEMENT**

This Employment Agreement (the "Agreement") is made effective as of the 18<sup>th</sup> day of September, 2006 (the "Effective Date"), between Helix Energy Solutions Group, Inc., a Minnesota corporation, ("Company"), and Alisa B. Johnson ("Employee"), an individual residing at 5628 San Felipe, Houston, Texas 77056.

WHEREAS, Employee has extensive legal and management skills and experience applicable to the energy industry, together with other knowledge and ability beneficial to Company; and

WHEREAS, the Company wishes employ Employee as Senior Vice President, General Counsel and Secretary of Company and Employee is willing to accept such employment upon the terms and conditions set forth in this Agreement;

NOW, THEREFORE, in consideration of the premises and mutual covenants and agreements set forth herein, the parties hereto agree as follows:

**Section 1. Term of Employment and Employment Duties.**

(a) Term of Employment. Employee agrees to be employed by the Company pursuant to the terms and conditions contained herein, for a period commencing on the date hereof and terminating twelve (12) months after delivery to Employee of a written notice of termination by the Company (the "Employment Term"); provided, however, that the occurrence of any event described in Sections 7(a), 7(b) or 7(c) prior to the end of the Employment Term shall result in the immediate termination of Employee's employment and the Employment Term, subject to the terms of such applicable section. Employee shall devote Employee's time, energy and skill to the affairs of the Company and any of its affiliated business entities and to the promotion of their interests. Any provision of this Agreement to the contrary notwithstanding, Employee shall immediately resign from any offices held with the Company, or its affiliates (as that term is defined in the regulations promulgated under the Securities Exchange Act of 1934, as amended; hereinafter "Affiliates") upon written request by the Company. Any resignation made pursuant to a written request by the Company under this Section shall not affect Employee's rights under this Agreement for any compensation, benefits or payments.

(b) Duties of Employee. Employee's duties shall include all the normal duties associated with the above-described position with Company and all other responsibilities assigned from time to time by the Executive Chairman of the Board, Board of Directors, and President and Chief Executive Officer of the Company. During the Employment Term, (i) Employee's services shall be rendered on a full time basis, (ii) Employee shall have no other employment and no substantial outside business activities and (iii) the headquarters for the performance of Employee's services shall be the principal executive or operating offices of the Company, subject to travel for such reasonable lengths of time as the performance of Employee's duties in the business of the Company may require.

---

## **Section 2. Compensation.**

(a) Salary. During the Employment Term, as compensation for Employee's services and covenants and agreements hereunder and subject to such changes therein as the Board may make from time to time, the Company agrees to pay Employee an initial salary for the period from the date hereof to December 31, 2006 at the annual rate of Two Hundred Forty Thousand and No/100 Dollars (\$240,000.00), payable in equal semi-monthly installments ("Salary") in accordance with the Company's regular payroll practices for its senior management executives, prorated for any partial year employment and subject to normal increases as approved by the Board adjustments; such Salary as annualized being herein referred to as "Annual Salary".

(b) Incentive Bonus. During the Employment Term, in addition to the Annual Salary payable to Employee pursuant to paragraph (a) above, Employee shall be entitled to an annual incentive bonus (the "Incentive Bonus") based on the achievement of personal, departmental and Company performance objectives, payable not later than three months after the close of each fiscal year of the Company, commencing with the fiscal year ending December 31, 2006, as established annually or from time to time by the Board of Directors, provided that Employee's Incentive Bonus for the fiscal year ending December 31, 2006 shall be One Hundred Thirty Thousand and No/100 Dollars (\$130,000).

(c) Restricted Stock Award. On the Effective Date, Employee shall receive 19,117 shares of Restricted Stock.

(d) Reimbursement of Expenses. During the Employment Term, Employee will be reimbursed by the Company for Employee's reasonable business expenses incurred in connection with the performance of Employee's duties hereunder, including, without limitation, a home fax line, car mileage, cell phone and business calls and other expenses consistent with Company policy from time to time.

## **Section 3. Benefits.**

(a) Employee Benefits. During the Employment Term, Employee shall be entitled to participate in any medical/dental, life insurance, accidental death, long term disability insurance plan and 401(k) or other insurance and retirement plans that have been or which may be adopted by the Company (as long as such plan is not discontinued) for the general and overall benefit of executive employees of the Company, according to the participation or eligibility requirements of each such plan.

(b) Vacation and Holidays. During the Employment Term, Employee shall enjoy such vacation, holiday and similar rights and privileges as are enjoyed generally by Company's senior management executives.

---

#### **Section 4. Nondisclosure and Nonuse of Confidential Information**

(a) Nondisclosure Period. During the period commencing with the date of this Agreement and ending on either: (i) the fifth anniversary of the date of the termination of Employee's employment with the Company if such termination arises as a result of: (x) the voluntary termination or retirement by Employee; or (y) the termination of Employee by the Company for Cause; or (ii) the date which is eighteen (18) months following the date of termination of Employee's employment with the Company if such termination arises for any reason other than as provided in subparagraph 4 (a)(i) above, Employee covenants and agrees with the Company that Employee shall not disclose or use any Confidential Information of which Employee is or becomes aware, whether or not such information is developed by her, except to the extent that such disclosure or use is directly related to and required by Employee's performance of duties assigned to Employee by the Company. Employee shall take all appropriate steps to safeguard Confidential Information and to protect it against disclosure, misuse, espionage, loss and theft.

(b) Confidential Information. As used in this Agreement, the term "Confidential Information" means information that is not generally known to the public and that is or has been used, developed or obtained, either prior to, on or following the date of this Agreement, by the Company in connection with its businesses, including but not limited to: (i) products or services; (ii) fees, costs and pricing structures; (iii) designs; (iv) analysis; (v) drawings, photographs and reports; (vi) computer software, including operating systems, applications and program listings; (vii) flow charts, manuals and documentation; (viii) data bases; (ix) accounting and business methods; (x) inventions, devices, new developments, methods and processes, whether patentable or unpatentable and whether or not reduced to practice; (xi) customers and clients and customer or client lists; (xii) other copyrightable works; (xiii) all technology and trade secrets; and (xiv) all similar and related information in whatever form. Confidential Information shall not include any information that has become generally available to the public through no fault or participation of Employee prior to the date that Employee proposes to disclose or use such information. Information shall not be deemed to become generally available to the public because individual portions of the information have become separately published, but only if all material features comprising such information have become publicly available in combination.

#### **Section 5. Non-Competition and Non-Solicitation.**

(a) Non-Competition. Employee acknowledges and agrees with the Company that Employee's services to the Company are unique in nature and that the Company would be irreparably damaged if Employee were to provide similar services to any person or entity competing with the Company or engaged in a similar business. Employee accordingly covenants and agrees with the Company that during the period commencing with the date of this Agreement and ending on the later to occur of: (i) September 18, 2011; and (ii) (A) the second anniversary of the date of the termination of Employee's employment with the Company if such termination arises as a result of voluntary termination or retirement by Employee or termination by the Company for Cause, or (B) the first anniversary of the date of termination of Employee's employment with the Company if such termination arises for any reason other than as provided in the preceding subparagraph 5(a)(i)(A). Employee shall not, other than as a lawyer, directly or indirectly, either for Employee or for any other individual, corporation, partnership, joint venture or other entity, participate in any business

---

(including, without limitation, any division, group or franchise of a larger organization) that engages or which proposes to engage in the business of providing diving services in the Gulf of Mexico or any other business actively engaged in by the Company on the date of termination of Employee's employment in the area or areas where the Company is conducting such business; provided that, until such time as the Company waives in writing any rights it may have to enforce the terms of this Section 5 (the "Waiver"), during the period commencing on the date of the termination of Employee's employment with the Company and ending on the date on which either the non-competition provisions contained in this Section 5 terminate or the Waiver is delivered to Employee, whichever is earlier, the Company will pay to Employee either the amounts due under Section 7(d), if appropriate, or an amount equal to Employee's Annual Salary as of the date Employee's employment was terminated (which will be paid over time in accordance with the Salary payment schedule in effect from time to time for senior management executives of the Company) and during such time period Employee shall be entitled to all insurance benefits received by other senior management executives of the Company. For purposes of this Agreement, the term "participate in" shall include, without limitation, having any direct or indirect interest in any corporation, partnership, joint venture or other entity, whether as a sole proprietor, owner, stockholder, partner, joint venturer, creditor or otherwise, or rendering any direct or indirect service or assistance to any individual, corporation, partnership, joint venture and other business entity (whether as a director, officer, manager, supervisor, employee, agent, consultant or otherwise) but not ownership of 2% or less of the capital stock of a public company.

(b) Non-Solicitation. Employee covenants and agrees with the Company that during the period commencing with the date of this Agreement and ending on the later to occur of (i) September 18, 2009; and (ii) (A) the second anniversary of the date of termination of Employee's employment with the Company if such termination arises as a result of voluntary termination by the Company or for Cause, or (B) the date which is eighteen (18) months following the termination of Employee's employment with the Company if such termination arises for any reason other than as provided in the preceding subparagraph 5(b)(ii)(A) above, Employee shall not, directly or indirectly, for Employee or for any other individual, corporation, partnership, joint venture or other entity, (x) make any offer of employment, solicit or hire any supervisor, employee of the Company or its affiliates or induce or attempt to induce any employee of the Company or its affiliates to leave their employ or in any way interfere with the relationship between the Company or its affiliates and any of their employees; or (y) induce or attempt to induce any supplier, licensee, licensor, franchisee, or other business relation of the Company or its affiliates to cease doing business with them or in any way interfere with the relationship between the Company or its affiliates and any customer or business relation.

(c) Other Non-Competition Agreements. Employee represents and warrants to the Company that Employee is not a party to any agreement containing a non-competition provision or other restriction with respect to (a) the nature of any services or business which Employee is entitled to perform or conduct for the Company or (b) the disclosure or use of any information which, directly or indirectly, relates to the nature of the business of the Company or the services to be rendered by the Employee to the Company.

---

(d) Duty to Inform. For the period of one (1) year immediately following the end of Employee's employment with the Company, Employee agrees to inform each new employer, prior to accepting employment, of the existence of this agreement and provide that employer with a copy of it. In addition, Employee hereby authorizes the Company to forward a copy of this Agreement to any actual or prospective new employer.

#### **Section 6. Company's Ownership of Intellectual Property.**

(a) Company Intellectual Property. In the event that Employee as part of Employee's activities on behalf of the Company generates, authors or contributes to any invention, design, new development, device, product, method or process (whether or not patentable or reduced to practice or comprising Confidential Information), any copyrightable work (whether or not comprising Confidential Information) or any other form of Confidential Information relating directly or indirectly to the Company's business as prior hereto, now or hereinafter conducted (collectively, "Intellectual Property"), Employee acknowledges that such Intellectual Property is the exclusive property of the Company and hereby assigns all right, title and interest in and to such Intellectual Property to the Company. Any copyrightable work prepared in whole or in part by Employee shall be deemed a work made for hire under Section 201(b) of the 1976 Copyright Act, and the Company shall own all of the rights comprised in the copyright therein. Employee shall promptly and fully disclose all Intellectual Property to the Company and shall cooperate with the Company to protect the Company's interest in and rights to such Intellectual Property, including without limitation providing reasonable assistance in securing patent protection and copyright registrations and executing all documents as reasonably requested by the Company, whether such requests occur prior to or after termination of Employee's employment with the Company.

(b) Return of Confidential Information. As requested by the Company from time to time and upon the termination of Employee's employment with the Company for any reason, Employee shall promptly deliver to the Company all copies and embodiments, in whatever form, of all Confidential Information or Intellectual Property in Employee's possession or within Employee's control (including, but not limited to, written records, notes, photographs, manuals, notebooks, documentation, program listings, flow charts, magnetic media, disks, diskettes, tapes and all other materials containing any Confidential Information or Intellectual Property) irrespective of the location or form of such material and, if requested by the Company, shall provide the Company with written confirmation that all such materials have been delivered to the Company.

#### **Section 7. Termination of Agreement.**

(a) Termination for Cause. This Agreement may be terminated by the Company at any time during the Employment Term for Cause, in which event Employee shall have no further rights under this Agreement (but the Company's rights shall survive as herein otherwise herein provided including, without limitation, rights under Sections 4, 5 and 6). For purposes of the preceding sentence, Cause shall mean: (i) any breach or threatened breach by Employee of any of Employee's agreements contained in Sections 4, 5 or 6; (ii) repeated or willful neglect by Employee in performing any duty or carrying out any responsibility assigned or delegated to her pursuant to Section 1(b) hereof, which neglect shall not have permanently ceased within ten (10) business days after written notice to Employee thereof; or (iii) the commission by Employee of any criminal act

---

involving moral turpitude or a felony that results in an arrest or indictment, or the commission by Employee, based on reasonable proof, of any act of fraud or embezzlement involving the Company or its customers or suppliers. In the event that the Company elects to terminate this Agreement for Cause, it will give Employee written notice of such termination.

(b) Termination Upon Death. This Agreement shall terminate automatically upon the death of Employee during the Employment Term. In such event, the Company shall be obligated to pay to Employee's estate, or to such person or persons as Employee may designate in writing to the Company, (i) through the last day of the fiscal year in which Employee's death shall have occurred, the salary (payable in the same manner as described in Section 2(a) hereof) to which Employee would have been entitled under Section 2(a) hereof had such death not occurred, and (ii) as soon as reasonably practicable after Employee's death, any accrued but, as of the date of such death, unpaid Incentive Bonus (or, if such death shall have occurred after the first three (3) months of the Company's fiscal year, any prorated portion thereof).

(c) Termination Upon Disability. This Agreement may be terminated by the Company at any time during the Employment Term in the event that Employee shall have been unable, because of Disability, to perform Employee's principal duties for the Company for a cumulative period of six (6) months within any eighteen (18) month period. Prior to Employee's termination for Disability as provided herein, Employee shall remain eligible to receive the compensation and benefits set forth in Section 2 and Section 3 hereof. Upon such termination, Employee shall be entitled to receive as soon as reasonably practicable thereafter, any accrued, but as of the date of such termination, unpaid Incentive Bonus (or, if such termination shall have occurred after the first three (3) months of the Company's fiscal year, any prorated portion thereof). For purposes of this Section 7(c), Disability shall mean any physical or mental condition of Employee which shall substantially impair Employee's ability to perform Employee's principal duties hereunder. In the event that the Company elects to terminate this Agreement by reason of Disability under this Section 7(c), it will give written notice of such termination, and, at the Company's discretion, Employee's employment will terminate sixty (60) days thereafter.

(d) Termination by the Company Without Cause After Change in Control. If the Company terminates this Agreement for any reason other than pursuant to the terms of Sections 7(a), 7(b), or 7(c), and such termination occurs within six (6) months after the occurrence of a Change in Control and a Material Change in Senior Management, then, in addition to any amounts otherwise due under this Agreement, the Company shall: (1) pay to Employee an amount equal to two times Salary together with an amount equal to the Incentive Bonus paid to Employee for Employee's last complete year of employment; (2) continue Employee's participation in the Company's medical, dental, accidental death, and life insurance plans, as provided in Section 3 of this Agreement, for two (2) years, subject to COBRA required benefits thereafter; and (3) cause Employee to be fully vested in any stock options or stock grants held by Employee. The Company shall make the payment due in one lump sum within ten (10) days of the effective date of termination.

A "Change in Control" shall be deemed to have occurred at any time after the date of this Agreement that any person (including those persons who own more than 10% of the combined voting power of the Company's outstanding voting securities on the date hereof) becomes the beneficial owner, directly or indirectly, of 45% or more of the combined voting

---

power of the Company's then outstanding voting securities.

A "Material Change in Senior Management" shall mean any one or both of the CEO and COO cease their employment with the Company.

(e) Termination by Employee with Good Cause after Change in Control. If Employee terminates this Agreement for Good Cause and such termination occurs within two (2) years of the occurrence of a Change in Control, then, in addition to any amounts otherwise due under this Agreement, the Company shall: (1) pay to Employee an amount equal to two times Salary together with an amount equal to the Incentive Bonus paid to Employee for Employee's last complete year of employment; (2) continue Employee's participation in the Company's medical, dental, accidental death, and life insurance plans, as provided in Section 3 of this Agreement, for two (2) years, subject to COBRA required benefits thereafter, and (3) cause Employee to be fully vested in any stock options or stock grants held by Employee. The Company shall make the payment due in one lump sum within ten (10) days of the effective date of termination.

"Good Cause" shall mean the occurrence of both of the following events: (1) a Material Change in Senior Management; together with (2) any of the following:

- (i) the assignment by the Company to Employee of duties that are materially inconsistent with Employee's office with the Company at the time of such assignment, or the removal by the Company from Employee of a material portion of those duties usually appertaining to Employee's office with the Company at the time of such removal;
  - (ii) a material change by the Company, without Employee's prior written consent, in Employee's responsibilities to the Company, as such responsibilities are ordinarily and customarily required from time to time of a senior officer of a corporation engaged in the Company's business;
  - (iii) any removal of Employee from, or any failure to reelect or to reappoint Employee to, the office stated in Section 1(b);
  - (iv) The Company's direction that Employee discontinue service (or not seek reelection or reappointment) as a director, officer or member of any corporation or association of which Employee is a director, officer, or member at the date of this Agreement;
  - (v) a reduction by the Company in the amount of Employee's salary in effect at the time of the occurrence of a Change in Control or the failure of the Company to pay such salary to Employee at the time and in the manner specified in this Agreement;
  - (vi) the discontinuance (without comparable replacement) or material reduction by the Company of Employee's participation in any bonus or other employee benefit arrangement (including, without limitation, any profit-sharing, thrift, life insurance, medical, dental, hospitalization, stock option or retirement plan or arrangement) in which Employee is a participant under the terms of this Agreement, as in effect on
-

the date hereof or as may be improved from time to time hereafter;

- (vii) the moving by the Company of Employee's principal office space, related facilities, or support personnel, from the Company's principal operating offices, or the Company's requiring Employee to perform a majority of Employee's duties outside the Company's principal operating offices for a period of more than 30 consecutive days;
  - (viii) the relocation, without Employee's prior written consent, of the Company's principal Employee offices to a location outside the county in which such offices are located at the time of the signing of this Agreement;
  - (ix) in the event the Company requires Employee to reside at a location more than twenty-five (25) miles from the Employee's principal offices, except for occasional travel in connection with the Company business to an extent and in a manner which is substantially consistent with Employee's current business travel obligations;
  - (x) in the event Employee consents to a relocation of the Employee's principal offices, the failure of the Company to (A) pay or reimburse Employee on an after-tax basis for all reasonable moving expenses incurred by Employee in connection with such relocation or (B) indemnify Employee on an after-tax basis against any loss realized by Employee on the sale of Employee's principal residence in connection with such relocation;
  - (xi) the failure of the Company to continue to provide Employee with office space, related facilities and support personnel (including, without limitation, administrative and secretarial assistance) that are commensurate with Employee's responsibilities to and position with the Company, and no less than those prior to this Agreement;
  - (xii) any significant change in Employee's reporting relationships or changes in senior management of the Company; or
  - (xiii) the failure by the Company to promptly reimburse Employee for the reasonable business expenses incurred by Employee in the performance of Employee's duties for the Company, in accordance with this Agreement.
- (f) Gross-Up Payments; Certain Additional Payments by the Company.
- (i) Anything in this Agreement to the contrary notwithstanding, in the event it shall be determined that any payment or distribution by the Company, or any of its Affiliates, under this Agreement to or for the benefit of Employee (any such payments or distributions being individually referred to herein as a Payment, and any two or more of such payments or distributions being referred to herein as Payments), would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code (the "Code"; such excise tax, together with any interest thereon, any penalties, additions to tax, or additional amounts with respect to such excise tax, and any interest in
-

respect of such penalties, additions to tax or additional amounts, being collectively referred herein to as the “Excise Tax”), then Employee shall be entitled to receive an additional payment or payments (individually, a “Gross-Up Payment” with any two or more of such additional payments being referred to “Gross-Up Payments”) in an amount such that after payment by Employee of all Excise Taxes imposed upon the Payment(s) and, if applicable, Gross-Up Payment(s), Employee retains a total amount of Gross-Up Payments, whether one or more, equal to the Excise Tax imposed upon the Payment(s) and, if applicable, Gross-Up Payment(s).

- (ii) Subject to the provisions of Section 7(f)(iii) through 7(f)(ix), any determination (“Determination”) required to be made under this Section 7(f)(ii), including whether a Gross-Up Payment is required and the amount of such Gross-Up Payment, shall initially be made, at the Company’s expense, by nationally recognized tax counsel mutually acceptable to the Company and Employee (“Tax Counsel”). Tax Counsel shall provide detailed supporting legal authorities, calculations, and documentation both to the Company and Employee within fifteen (15) business days of the termination of Employee’s employment, if applicable, or such other time or times as is reasonably requested by the Company or Employee. If Tax Counsel makes the initial Determination that no Excise Tax is payable by Employee with respect to a Payment or Payments, it shall furnish Employee with an opinion reasonably acceptable to Employee that no Excise Tax will be imposed with respect to any such Payment or Payments. Employee shall have the right to dispute any Determination (a “Dispute”) within fifteen (15) business days after delivery of Tax Counsel’s opinion with respect to such Determination. The Gross-Up Payment, if any, as determined pursuant to such Determination shall, at the Company’s expense, be paid by the Company to Employee within five (5) business days of Employee’s receipt of such Determination. The existence of a Dispute shall not in any way affect Employee’s right to receive the Gross-Up Payment in accordance with such Determination. If there is no Dispute, such Determination shall be binding, final and conclusive upon the Company and Employee, subject in all respects, however, to the provisions of Section 7(f)(iii) through 7(f)(ix) below. As a result of the uncertainty in the application of Sections 4999 and 280G of the Code, it is possible that Gross-Up Payments (or portions thereof) which will not have been made by the Company should have been made (“Underpayment”), and if upon any reasonable written request from Employee or the Company to Tax Counsel, or upon Tax Counsel’s own initiative, Tax Counsel, at the Company’s expense, thereafter determines that Employee is required to make a payment of any Excise Tax or any additional Excise Tax, as the case may be, Tax Counsel shall, at the Company’s expense, determine the amount of the Underpayment that has occurred and any such Underpayment shall be promptly paid by the Company to Employee.
  - (iii) the Company shall release, defend, indemnify and hold harmless Employee on a fully grossed-up after-tax basis from and against any and all claims, losses, liabilities, obligations, damages, impositions, assessments, demands, judgments, settlements, costs and expenses (including reasonable attorneys’, accountants’, and experts’ fees
-

and expenses) with respect to any Tax liability of Employee resulting from any Final Determination that any Payment is subject to the Excise Tax.

- (iv) If a party hereto receives any written or oral communication with respect to any question, adjustment, assessment or pending or threatened audit, examination, investigation or administrative, court or other proceeding which, if pursued successfully, could result in or give rise to a claim by Employee against the Company under this Section 7(f) ("Claim"), including, but not limited to, a claim for indemnification of Employee by the Company under Section 7(f)(iii), then such party shall promptly notify the other party hereto in writing of such Claim ("Tax Claim Notice").
  - (v) If a Claim is asserted against Employee ("Employee Claim"), Employee shall take or cause to be taken such action in connection with contesting such Employee Claim as the Company shall reasonably request in writing from time to time, including the retention of counsel and experts as are reasonably designated by the Company (it being understood and agreed by the parties hereto that the terms of any such retention shall expressly provide that the Company shall be solely responsible for the payment of any and all fees and disbursements of such counsel and any experts) and the execution of powers of attorney, provided that:
    - (1) within thirty (30) calendar days after the Company receives or delivers, as the case may be, the Tax Claim Notice relating to such Employee Claim (or such earlier date that any payment of the Taxes claimed is due from Employee, but in no event sooner than five (5) calendar days after the Company receives or delivers such Tax Claim Notice), the Company shall have notified Employee in writing ("Election Notice") that the Company does not dispute its obligations (including, but not limited to, its indemnity obligations) under this Agreement and that the Company elects to contest, and to control the defense or prosecution of, such Employee Claim at the Company's sole risk and sole cost and expense; and
    - (2) the Company shall have advanced to Employee on an interest-free basis, the total amount of the Tax claimed in order for Employee, at the Company's request, to pay or cause to be paid the Tax claimed, file a claim for refund of such Tax and, subject to the provisions of the last sentence of Section 7(f)(vii), sue for a refund of such Tax if such claim for refund is disallowed by the appropriate taxing authority (it being understood and agreed by the parties hereto that the Company shall only be entitled to sue for a refund and the Company shall not be entitled to initiate any proceeding in, for example, United States Tax Court) and shall indemnify and hold Employee harmless, on a fully grossed-up after-tax basis, from any Tax imposed with respect to such advance or with respect to any imputed income with respect to such advance; and
    - (3) the Company shall reimburse Employee for any and all costs and expenses
-

resulting from any such request by the Company and shall indemnify and hold Employee harmless, on fully grossed-up after-tax basis, from any Tax imposed as a result of such reimbursement.

- (vi) Subject to the provisions of Section 7(f)(v) hereof, the Company shall have the right to defend or prosecute, at the sole cost, expense and risk of the Company, such Employee Claim by all appropriate proceedings, which proceedings shall be defended or prosecuted diligently by the Company to a Final Determination; provided, however, that (i) the Company shall not, without Employee's prior written consent, enter into any compromise or settlement of such Employee Claim that would adversely affect Employee, (ii) any request from the Company to Employee regarding any extension of the statute of limitations relating to assessment, payment, or collection of Taxes for the taxable year of Employee with respect to which the contested issues involved in, and amount of, Employee Claim relate is limited solely to such contested issues and amount, and (iii) the Company's control of any contest or proceeding shall be limited to issues with respect to Employee Claim and Employee shall be entitled to settle or contest, in Employee's sole and absolute discretion, any other issue raised by the Internal Revenue Service or any other taxing authority. So long as the Company is diligently defending or prosecuting such Employee Claim, Employee shall provide or cause to be provided to the Company any information reasonably requested by the Company that relates to such Employee Claim, and shall otherwise cooperate with the Company and its representatives in good faith in order to contest effectively such Employee Claim. the Company shall keep Employee informed of all developments and events relating to any such Employee Claim (including, without limitation, providing to Employee copies of all written materials pertaining to any such Employee Claim), and Employee or Employee's authorized representatives shall be entitled, at Employee's expense, to participate in all conferences, meetings and proceedings relating to any such Employee Claim.
  - (vii) If, after actual receipt by Employee of an amount of a Tax claimed (pursuant to an Employee Claim) that has been advanced by the Company pursuant to Section 7(f)(v)(2) hereof, the extent of the liability of the Company hereunder with respect to such Tax claimed has been established by a Final Determination, Employee shall promptly pay or cause to be paid to the Company any refund actually received by, or actually credited to, Employee with respect to such Tax (together with any interest paid or credited thereon by the taxing authority and any recovery of legal fees from such taxing authority related thereto), except to the extent that any amounts are then due and payable by the Company to Employee, whether under the provisions of this Agreement or otherwise. If, after the receipt by Employee of an amount advanced by the Company pursuant to Section 7(f)(v)(2), a determination is made by the Internal Revenue Service or other appropriate taxing authority that Employee shall not be entitled to any refund with respect to such Tax claimed, and the Company does not notify Employee in writing of its intent to contest such denial of refund prior to the expiration of thirty (30) days after such determination, then such advance shall be forgiven and shall not be required to be repaid and the amount of such advance shall
-

offset, to the extent thereof, the amount of any Gross-Up Payments and other payments required to be paid hereunder.

- (viii) With respect to any Employee Claim, if the Company fails to deliver an Election Notice to Employee within the period provided in Section 7(f)(v)(1) hereof or, after delivery of such Election Notice, the Company fails to comply with the provisions of Section 7(f)(v)(2) and (3) and 7(f)(vi) hereof, then Employee shall at any time thereafter have the right (but not the obligation), at Employee's election and in Employee's sole and absolute discretion, to defend or prosecute, at the sole cost, expense and risk of the Company, such Employee Claim. Employee shall have full control of such defense or prosecution and such proceedings, including any settlement or compromise thereof. If requested by Employee, the Company shall cooperate, and shall cause its Affiliates to cooperate, in good faith with Employee and Employee's authorized representatives in order to contest effectively such Employee Claim. the Company may attend, but not participate in or control, any defense, prosecution, settlement or compromise of any Employee Claim controlled by Employee pursuant to this Section 7(f)(viii) and shall bear its own costs and expenses with respect thereto. In the case of any Employee Claim that is defended or prosecuted by Employee, Employee shall, from time to time, be entitled to current payment, on a fully grossed-up after-tax basis, from the Company with respect to costs and expenses incurred by Employee in connection with such defense or prosecution.
  - (ix) In the case of any Employee Claim that is defended or prosecuted to a Final Determination pursuant to the terms of this Section 7(f)(ix), the Company shall pay, on a fully grossed-up after-tax basis, to Employee in immediately available funds the full amount of any Taxes arising or resulting from or incurred in connection with such Employee Claim that have not theretofore been paid by the Company to Employee, together with the costs and expenses, on a fully grossed-up after-tax basis, incurred in connection therewith that have not theretofore been paid by the Company to Employee, within ten (10) calendar days after such Final Determination. In the case of any Employee Claim not covered by the preceding sentence, the Company shall pay, on a fully grossed-up after-tax basis, to Employee in immediately available funds the full amount of any Taxes arising or resulting from or incurred in connection with such Employee Claim at least ten calendar days before the date payment of such Taxes is due from Employee, except where payment of such Taxes is sooner required under the provisions of this Section 7(f)(ix), in which case payment of such Taxes (and payment, on a fully grossed-up after-tax basis, of any costs and expenses required to be paid under this Section 7(f)(ix)) shall be made within the time and in the manner otherwise provided in this Section 7(f)(ix).
  - (x) For purposes of this Agreement, the term "Final Determination" shall mean (A) a decision, judgment, decree or other order by a court or other tribunal with appropriate jurisdiction, which has become final and non-appealable; (B) a final and binding settlement or compromise with an administrative agency with appropriate jurisdiction, including, but not limited to, a closing agreement under Section 7121 of
-

the Code; (C) any disallowance of a claim for refund or credit in respect to an overpayment of Tax unless a suit is filed on a timely basis; or (D) any final disposition by reason of the expiration of all applicable statutes of limitations.

(xi) For purposes of this Agreement, the terms "Tax" and "Taxes" mean any and all taxes of any kind whatsoever (including, but not limited to, any and all Excise Taxes, income taxes, and employment taxes), together with any interest thereon, any penalties, additions to tax, or additional amounts with respect to such taxes and any interest in respect of such penalties, additions to tax, or additional amounts.

(g) Effect of Termination. In the event that the Employee is terminated pursuant to any paragraph of this Section 7, Employee shall thereafter have no further rights under this Agreement, except for those explicitly set forth in the particular paragraph of this Section 7 which served as the basis for such termination. Notwithstanding any such termination, the covenants and agreements of Employee contained in Sections 4, 5(a) (so long as payments under Section 5(a) are continued as therein described), 5(b) and 6 hereof shall survive and remain in full force and effect.

**Section 8. Notices.**

(a) Notices. All notices, requests, demands and other communications hereunder must be in writing and shall be deemed to have been duly given if delivered by hand, sent to the recipient by reputable express courier service (charge prepaid), or mailed by first class, registered mail, return receipt requested, postage and registry fees prepaid and addressed as follows:

If to Employee:                         At the address set forth on page 1 hereof.

If to the Company:                    Helix Energy Solutions Group, Inc.  
  400 North Belt East, Suite 400  
  Houston, Texas 77060  
  Attention: President

(b) Change of Address. Addresses may be changed by notice in writing signed by the addressee.

**Section 9. General Provisions.**

(a) Company Subsidiaries. For purposes of this Agreement, the term Company shall include all subsidiaries of the Company.

(b) Severability. Whenever possible, each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be invalid, illegal or unenforceable in any respect under any applicable law or rule in any jurisdiction, such invalidity, illegality or unenforceability shall not affect any other provisions of any other jurisdiction, and this Agreement shall be reformed, construed and enforced in such jurisdictions as if such invalid, illegal or unenforceable provision had never been contained herein. The parties agree that a court of competent jurisdiction making a determination of the

invalidity or unenforceability of any term or provision of Sections 4, 5 and 6 of this Agreement shall have the power to reduce the scope, duration or area of any such term or provision, to delete specific words or phrases or to replace any invalid or unenforceable term or provision in Sections 4, 5, 6 with a term or provision that is valid and enforceable and that comes closest to expressing the intention of the invalid or unenforceable term or provision, and this Agreement shall be enforceable as so modified.

(c) Complete Agreement. This Agreement, embodies the complete agreement and understanding among the parties and supersedes and preempts any prior understandings, agreements or representations by or among the parties, written or oral, which may have related to the subject matter hereof in any way.

(d) Counterparts. This Agreement may be executed in separate counterparts, each of which is deemed to be an original and all of which taken together constitute one and the same agreement.

(e) Successors and Assigns. Except as otherwise provided herein, this Agreement shall bind and inure to the benefit of and be enforceable by the Company and Employee and their respective successors and assigns; provided that the rights and obligations of Employee under this Agreement shall not be assignable without the prior written consent of the Company.

(f) Governing Law. All questions concerning the construction, validity and interpretation of this Agreement and the exhibits hereto shall be governed by the internal law, and not the law of conflicts, of the State of Texas.

(g) Remedies. Each of the parties to this Agreement shall be entitled to enforce its rights under this Agreement specifically, to recover damages and costs (including reasonable attorneys fees) caused by any breach of any provision of this Agreement and to exercise all other rights existing in its favor. The parties hereto agree and acknowledge that Employee's breach of any term or provision of this Agreement shall materially and irreparably harm the Company, that money damages shall accordingly not be an adequate remedy for any breach of the provisions of this Agreement and that any party in its sole discretion and in addition to any other remedies it may have at law or in equity may apply to any court of law or equity of competent jurisdiction (without posting any bond or deposit) for specific performance and/or other injunctive relief in order to enforce or prevent any violations of the provisions of this Agreement.

(h) Amendment and Waiver. The provisions of this Agreement may be amended and waived only with the prior written consent of the Company and Employee.

IN WITNESS, WHEREOF, the parties hereto have duly executed this Agreement as of the date first above written.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM'S ACKNOWLEDGEMENT  
LETTER

November 6, 2006

To the Board of Directors and Shareholders  
of Helix Energy Solutions Group, Inc.

We are aware of the incorporation by reference in the Registration Statement Forms S-3 (Nos. 333-103451 and 333-125276) and Forms S-8 (Nos. 333-126248, 333-58817, 333-50289 and 333-50205) of Helix Energy Solutions Group, Inc. of our report dated November 6, 2006 relating to the unaudited condensed consolidated interim financial statements of Helix Energy Solutions Group, Inc. that are included in its Form 10-Q for the quarter ended September 30, 2006.

Very truly yours,

/s/ Ernst & Young LLP

Houston, Texas

**SECTION 302 CERTIFICATION**

I, Owen Kratz, the Principal Executive Officer of Helix Energy Solutions Group, Inc., certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Helix Energy Solutions Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: November 7, 2006

**SECTION 302 CERTIFICATION**

I, A. Wade Pursell, the Principal Financial Officer of Helix Energy Solutions Group, Inc., certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Helix Energy Solutions Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board of Directors and Shareholders of  
Helix Energy Solutions Group, Inc.

We have reviewed the condensed consolidated balance sheet of Helix Energy Solutions Group, Inc. and Subsidiaries as of September 30, 2006, and the related condensed consolidated statements of operations for the three-month and nine-month periods ended September 30, 2006 and 2005, and the condensed consolidated statements of cash flows for the nine-month periods ended September 30, 2006 and 2005. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Helix Energy Solutions Group, Inc. and Subsidiaries as of December 31, 2005, and the related consolidated statements of operations, shareholders' equity, and cash flows for the year then ended, not presented herein, and in our report dated March 14, 2006, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2005, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.
