Forward-Looking Statements

This presentation contains forward-looking statements that involve risks, uncertainties and assumptions that could cause our results to differ materially from those expressed or implied by such forward-looking statements. All statements, other than statements of historical fact, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including, without limitation, any statements regarding our strategy; any statements regarding visibility and future utilization; any projections of financial items; any statements regarding future operations expenditures; any statements regarding the plans, strategies and objectives of management for future operations; any statement regarding our ability to enter into and/or perform commercial contracts; any statements concerning developments; any statements regarding future economic conditions or performance; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. The forward-looking statements are subject to a number of known and unknown risks, uncertainties and other factors that could cause results to differ materially from those in the forward-looking statements, including but not limited to the performance of contracts by suppliers, customers and partners; actions by governmental and regulatory authorities; operating hazards and delays, which include delays in delivery, chartering or customer acceptance of assets or terms of their acceptance; our ultimate ability to realize current backlog; employee management issues; complexities of global political and economic developments; geologic risks; volatility of oil and gas prices and other risks described from time to time in our reports filed with the Securities and Exchange Commission ("SEC"), including the Company's most recently filed Annual Report on Form 10-K and in the Company's other filings with the SEC, which are available free of charge on the SEC's website at www.sec.gov. We assume no obligation and do not intend to update these forward-looking statements except as required by the securities laws.

Social Media

From time to time we provide information about Helix on Twitter (<u>@Helix_ESG</u>) and LinkedIn (<u>www.linkedin.com/company/helix-energy-solutions-group</u>).

Who We Are

Helix is a specialty deepwater service provider to the offshore energy industry, focusing on our subsea infrastructure services in Well Intervention and Robotics.

Deepwater Subsea Services

Well Intervention

Entering a wellbore to initiate, enhance, restore or decommission production as part of the well's natural life cycle.

Robotics

Providing remotely operated vehicles (ROVs) to perform deepwater service tasks beyond the reach of dive crews.

Why focus on these disciplines?

- Low F&D cost for enhanced reserves
- Extended well life via intervention defers cessation of production and P&A liability
- P&A is regulatory driven; eventually, demand should increase over time
- Demand for a more cost effective solution to rigs
- Robotics is essential for credible quality performance in deepwater operations

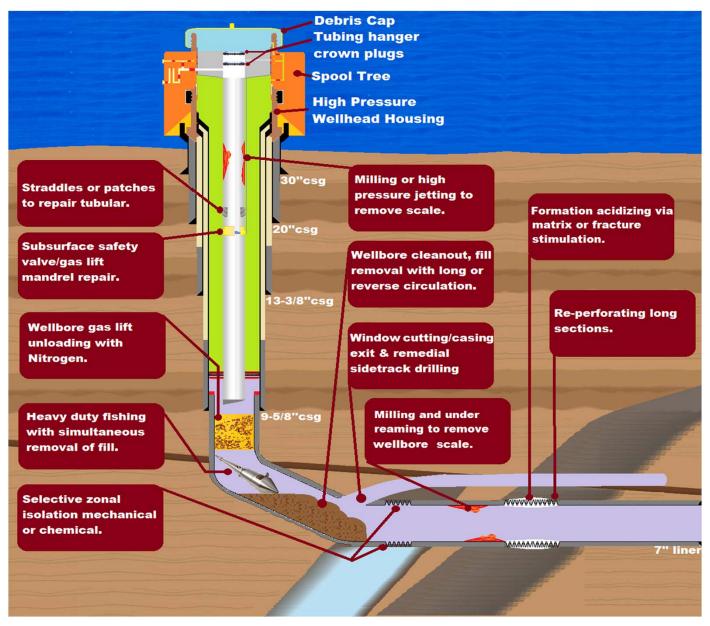

Well Intervention

Well Intervention Overview

Well Intervention Current Asset Base

Future Well Intervention Growth

Helix | Schlumberger

¹ Includes IRS system and 18³/₄" riserless system

Subsea Services Alliance

- Vessels-experienced crews
- Intervention systems
- WROV services for well operations

- Tooling and interface solutions
- Tooling and interface management
- Subsea equipment solutions

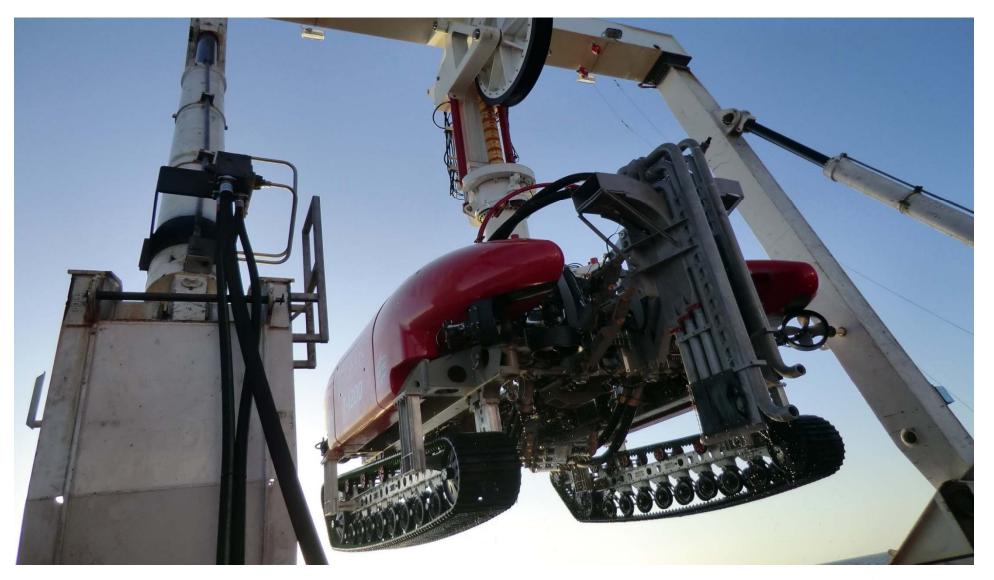

- Well intervention
- Pumping and stimulation
- Downhole measurements
- Integrated crews
- Emerging technology
- Project management

SUBSEA SERVICES ALLIANCE Helix | Schlumberger

Robotics

Robotics Assets

48 Workclass ROVs

The backbone of the fleet, capable of performing a broad array of subsea construction and well intervention tasks

5 Trenchers

The key to pipeline installation in heavily trafficked waters

2 ROVDrills

Provide seabed composition intelligence for subsea construction and subsea mining operations

ROV Chartered Vessel Fleet

- Currently three vessels active under long-term charter
- Spot vessels have historically been added and subtracted to the chartered vessel fleet as market demand requires

What Sets Helix Apart in Robotics

Oil & Gas

Renewable Energy

Subsea Mining

Specialty Services

- Helix charters its ROV support vessels, ensuring a modern fleet that can expand and contract based on regional requirements and market conditions
- A fleet of advanced vehicles, including several units custom built to our specifications
- Leading provider for trenching, cable burial and ROV support for offshore wind farm development
 - Current focus on export lines (field to shore)
 - Future opportunities in-field (inter-array cable installation)

Production Facilities

Production Facilities

Helix Producer I FPU (100%)

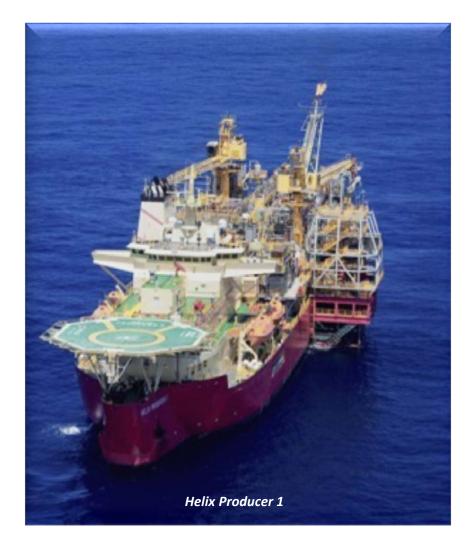

- Location: Phoenix Field (GOM)
- Production handling contract until at least June 1, 2023

Helix Fast Response System

- Retained fee contract to provide GOM spill response services, includes *Q4000*, *Helix Producer I* and well containment system
- Contract through March 2019

Independence Hub Semi (20%)

• Likely to be decommissioned

Key Financial Metrics

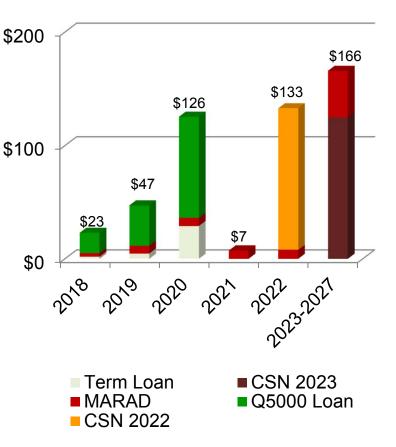

Debt Instrument Profile

Total funded debt¹ of \$502 million at end of Q2 2018

- \$125 million Convertible Senior Notes due 2022 4.25%
- \$125 million Convertible Senior Notes due 2023 4.125%
- \$36 million Term Loan LIBOR + 4.25%
 - Amortization payments of \$2.3 million in 2018, \$4.7 million in 2019 and remaining balance of \$29 million in 2020
- \$73 million MARAD Debt 4.93%
 - o Semi-annual amortization payments
- \$143 million Q5000 Loan LIBOR + 2.50%²
 - Quarterly amortization payments of approximately \$8.9 million with a final balloon payment of \$80 million at maturity in 2020

Debt Instrument Profile at 6/30/18 Principal Payment Schedule (\$ in millions)

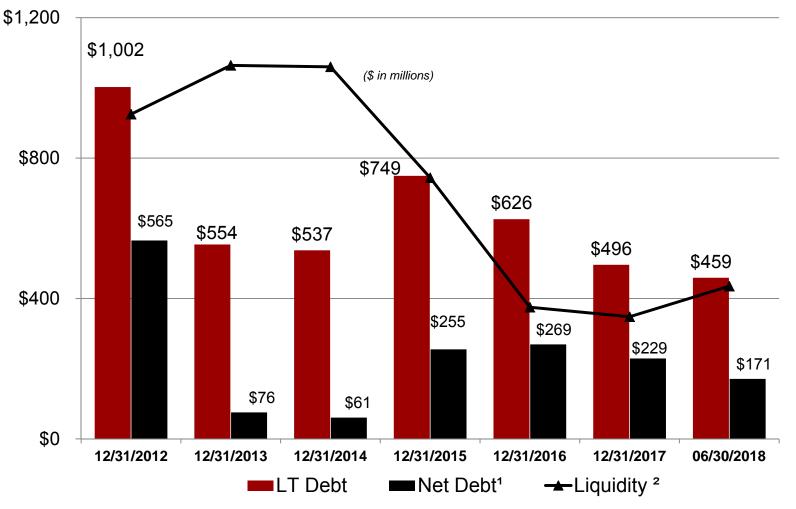

¹ Excludes unamortized debt discounts and debt issuance costs

² We have fixed through April 2020 the LIBOR interest rate on 75% of the Q5000 Loan at 1.51% utilizing interest rate swaps

Debt & Liquidity Profile

Liquidity of approximately \$435 million at 6/30/18

¹Net of unamortized debt issuance costs and discount of our Convertible Senior Notes due 2022, Convertible Senior Notes due 2023 and Convertible Senior Notes due 2032. Net debt is calculated as total long-term debt less cash and cash equivalents ²Liquidity is calculated as the sum of cash and cash equivalents (\$288 million) plus available capacity under our revolving credit facility (\$147 million)

2018 Outlook

2018 Outlook: Forecast

(\$ in millions)	 2018 Outlook	2017 Actual		
Revenues	\$ ~ 695-750	\$	581	
EBITDA ¹	~ 135-165		107	
Capital Additions	~135		248	
Revenue Split:				
Well Intervention	\$ 530-565	\$	406	
Robotics	140-160		153	
Production Facilities	65		64	
Elimination	 (40)		(42)	
Total	\$ ~ 695-750	\$	581	

Key forecast drivers:

- Siem Helix 1 & Siem Helix 2 both operational in Brazil
- Robotics segment improvements:
 - o Reduction in chartered vessel fleet with return of Deep Cygnus in Q1 2018
 - o Increased trenching work
 - Vessel and ROV utilization
- Q4000 utilization
- · Continued strengthening of North Sea market

¹ Outlook for 2018 includes an approximate \$20 million reduction in EBITDA for mobilization costs paid in 2016-2017 for the Brazil contracts and expensed over the term of the contracts.

2018 Outlook: Well Intervention

- Total backlog at June 30, 2018 was approx. \$1.4 billion, including \$1.0 billion for Well Intervention
- Gulf of Mexico
 - Q4000 entered third quarter idle and between projects; commenced contract on July 19; identified spot market opportunities through remainder of 2018, with idle time expected between projects
 - Q5000 Schedule revised and now contracted with BP through Q3, then available in spot market; BP elected to utilize 270 days in 2019
 - 10K IRS rental unit available in spot market
 - 15K IRS rental unit available in spot market though remainder of 2018
- North Sea
 - Seawell committed work through October; prospects through November 2018
 - *Well Enhancer* committed work into October; prospects into November 2018
- Brazil
 - Siem Helix 1 and 2 working for Petrobras

2018 Outlook: Robotics

- Grand Canyon (North Sea) contracted trenching projects for the remainder of 2018
- *Grand Canyon II* (GOM) near full utilization, including a 90-day walk-towork project, through mid-October
- *Grand Canyon III* (North Sea) contracted trenching projects through Q3 2018; pursuing spot opportunities in Q4
- Spot vessels we continue to use spot vessels to supplement our chartered fleet; spot work in Q3 using the *Brandon Bordelon* in the GOM and *Olympic Triton* in the North Sea

2018 Outlook: Capital Additions & Balance Sheet

2018 Capital Additions are currently forecasted at approximately \$135 million, consisting of the following:

- Growth Capex \$115¹ million in growth capital, primarily for newbuilds:
 - \$105 million for Q7000, including a \$69 million shipyard payment in December 2018
 - \$10 million for intervention systems
- Maintenance Capex \$20 million for vessel and intervention system maintenance, (including dry dock costs)
- Capital Additions for the second half of 2018 expected to be \$100 million

Balance Sheet

Our total funded debt² level is expected to decrease by \$23 million (from \$502 million at June 30, 2018 to \$479 million at December 31, 2018) as a result of scheduled principal payments.

¹ Includes capitalized interest

² Excludes unamortized discounts and issuance costs

Beyond 2018

- Expect improvements despite challenging market conditions
 - o Several long term well intervention contracts
 - $\circ~$ Operational improvements and cost reductions
- Market improvements offer additional upside potential
- Cash Flows improvements
 - o Improved operating cash flows starting in 2018
 - Expected strong free cash flow once all major capital projects completed

Well Intervention

- o Expanded alliance offerings
- o Q7000 available
- Focus on continued improved operating performance

Robotics

- o Expect increasingly strong renewables trenching market
- Improvements in cost structure
 - > Deep Cygnus returned in Q1 2018
 - Grand Canyon II hedge expires in Q3 2019
 - Grand Canyon I charter expires Q4 2019

Free cash flow	\$	26	\$	(50)	\$	20	\$	46	\$	(69)	\$	(169)

We define EBITDA as earnings before income taxes, net interest expense, gain or loss on extinguishment of long-term debt, net other income or expense, and depreciation and amortization expense. Non-cash losses on equity investments are also added back if applicable. To arrive at our measure of Adjusted EBITDA, we exclude gain or loss on disposition of assets. In addition, we include realized losses from foreign currency exchange contracts not designated as hedging instruments and other than temporary loss on note receivable, which are excluded from EBITDA as a component of net other income and expense. We define free cash flows from operating activities less capital expenditures, net of proceeds from sale of assets. We use EBITDA and free cash flow to monitor and facilitate internal evaluation of the performance of our business operations, to facilitate external comparison of our business results to those of others in our industry, to analyze and evaluate financial strategic planning decisions regarding future investments and acquisitions, to plan and evaluate operating budgets, and in certain cases, to report our results to the holders of our debt as required by our debt covenants. We believe that our measures of EBITDA and free cash flow investors understand our operating performance and compare our results to other companies that have different financing, capital and tax structures. Other companies may calculate their measures of EBITDA, Adjusted EBITDA and free cash flow differently from the way we do, which may limit their usefulness as comparative measures. EBITDA, Adjusted EBITDA, and incertain cash flow should not be considered in isolation or as a substitute for, but instead are supplemental to, income from operations, net income or other income data prepared in accordance with GAAP. Non-GAAP financial measures should be viewed in addition to, and not as an alternative to, our reported results prepared in accordance with GAAP. Users of this financial information should consider the types of events and
